MRS. INES WAGNER, THE NOTED medium of Kansas City, Mo., will lecture, followed by messages at BURBANK HALL, Thursday evening, Oct. 6th.

PERSONAL—

Business.

MRS. MASSON.

the noted palmist of London, Eng., may be consulted at

by those desiring CAREFUL, CONSCIENTIOUS AND SCIENTIFIC HAND-READINGS FROM ONE OF THE FOREMOST PALMISTS OF THE DAY.

The earnest student and thinker will soon learn in his investigations along psychological lines that that which pertains to occult phenomena proper can readily be distinguished from a crude and ofttimes exposed SLEIGHT-OF [illegible] ST.

in the telling of the subject's name, age, etc., AFTER HE HIMSELF HAS WRITTEN THAT INFORMATION.

PALMISTRY, HONESTLY PRACTICED, WILL NOT tell you your name; but it WILL give you information of considerably greater value in every-day life.

Your vocation, your present line of work, matters of health and domestic life, financial success, best ways and means of climbing out of a rut of ill luck into wide paths of success and prosperity, can all be told you through scientific palmistry, WITHOUT A SINGLE QUESTION, WRITTEN OR VERBAL.

MRS. MASSON DOES NOT APPEAL TO IGNORANT SUPERSTITION, BUT TO THE FINEST INTELLIGENCE.

HIGH-CLASS PATRONAGE SOLICITED.

(Daily and evenings; Sundays, 9 to 5.)

PERSONAL—WHY PAY LARGE FEES for treatment when you can be a member of our institute for $1 per month, and receive medical attendance from our regular licensed physician with years of experience and the most approved methods—all forms of electric baths and examination free and confidential. Hours 9 a.m. to 8 p.m. Sundays 10 to 12. GERMAN ELECTRO-MEDICAL INSTITUTE, 321 Byrne Bldg., 235 S. Broadway.

PERSONAL—THIS OFFICE IS AUTHORized to offer a liberal reward for any information concerning the explosion in the Times building Saturday morning. This information will be received in strict confidence. NICK HARRIS, Supt. Nick D. Harris Detectives, 210 Lankershim Bldg. Main 3783, A4632.

PERSONAL—EXCELLENT RESULTS OBtained by Mrs. Wesley for all who consult her on all affairs of life. When in doubt consult the best of psychics. Mrs. Wesley can satisfy you of her ability in this line. Call and investigate. Parlors 17 and 18, 227 1-2 S. SPRING ST. Main 5643.

$6000.

New bungalow facing east, among beautiful homes. It is just finished with hardwood floors and every modern idea that you would expect to find in an up-to-date home. The bathroom is the big feature of this pretty place and must be seen to be appreciated. The lot is large and only a step to the new Ninth street car line. At $6000 this is a real snap. Easy terms can be arranged.

HANDSOME OXFORD BLVD. HOME.
$6250.
$6250.
$6250.
$6250.

Eight-room residence, new, on Oxford boulevard, close to the Fourth-street car line, and in the desirable Wilshire district. This home is artistically arranged, and the construction is of the highest quality. The first floor contains the living-room, den, dining-room, breakfast-room and kitchen. The woodwork is finished in grained effect, which closely resembles oak. The wall decorations are done in hand work. The fixtures are of hammered copper and the fireplace is protected by a large copper hood of the same design. The second floor has three spacious bedrooms, large bath, splendidly equipped, all exceptionally well finished in white enamel, and a fine sleeping balcony. The closets are unusually large, with built-in wardrobes. There are a good sized garage and servants' quarters on the premises. The lot is highly improved with flowers, trees and shrubbery. Price, with reasonable terms, $6250.

GRAND VIEW—NEAR 6TH STREET.

FURNISHED. FURNISHED
$6500.

Only a step from Westlake Park we have a beautiful seven-room semi-bungalow on a corner location, completely furnished, including new piano and mahogany furniture. This lot is worth about $5000. The house cost $5000 to build and furniture is well worth $1000. This whole if sold at once, $6500. Must have half cash. Present income over 9 per cent. net. This is a real snap in the Westlake and does not come often.

ARDMORE BUNGALOW.
$7750
$7750
$7750
$7750

Seven large rooms and in the very heart of the Wilshire section on Ardmore Drive, close to the car line and among beautiful homes where there are no vacant lots to stare you in the face.

This bungalow stands on a lot 50x160 feet and is strictly hard finished and contains all the conveniences to be found in homes costing five times as much. The living-room runs across the front of the house and is finished in solid mahogany. The dining-room is beautifully beamed and paneled and is very artistically finished in golden oak. The three bedrooms are exceptionally large and beautifully designed with imported paper. The breakfast room, kitchen and bathroom complete the floor plan. The walls in the two principal rooms are finished in oil by an artist, and the stained glass effect that these rooms get makes them elegant. All the floors in this bungalow are hardwood, quartered oak in the principal rooms and curly maple in the bedrooms. Cellar, furnace, automatic heater, wash trays, woodstone sink and cut glass fixtures complete this very pretty bungalow.

See it with us Monday for it will not last long. Terms can be arranged.

BEST BUY
IN THE WILSHIRE SECTION.
$8000.
$8000.
$8000.
$8000.

In this beautiful and sightly home, located but a block off Wilshire Blvd., we confidently present the best all-round value to be had in the city's western section today. The lot fronts east, right at the crest of a sightly knoll; the car is but a step away; restrictions are $4000 or better all about. In the dwelling itself care has been taken to provide not only a series of eight handsomely appointed rooms, but also a structure of solid and substantial worth. There are hardwood floors throughout, furnace and automatic heater. Effective stone and cement work makes the outline very attractive. You could not build the property for the price asked—$8000.

AN EXQUISITE WESTMORELAND
BOULEVARD RESIDENCE.
$14,000.
$14,000.
$14,000.
$14,000.

This home is situated on a 60-foot lot on Westmoreland boulevard and surrounded by many of the finest residences in the city. The house has just been completed and all work was performed under the direct supervision of the owner who has had an extended experience in building expensive homes.

The first floor contains a large living-room and den which opens out onto a pergola. The hall is very spacious and the stairway broad and easy in its ascent. These rooms and hall are finished in the best mahogany, the hall being generously paneled. The dining-room, which is unusually spacious, is finished in oak and is also located in the front part of the house. Besides this there is a servants' quarters and bath on the ground floor.

The second floor contains five large bedrooms conveniently arranged, large closets, several large-size pier beveledge mirrors. The bathroom is unusually large, tiled and plumbing of the best quality. The sleeping porch faces the east and at easy access to all parts of the upper floors. The decorations were done by the California Furniture Co. The fixtures are of special design and in perfect harmony with the color schemes of the house. It would be a difficult matter to find a more complete home in all its appointments in the city, and the price above quoted is truly a bargain.

BEAUTIFUL HOME ON FIGUEROA &
ADAMS.
$15,500
$15,500
$15,500.
$15,500.

Located in the finest block on Figueroa st., between two fifty-thousand-dollar homes, on a lot 60x190 to a twenty-foot paved alley; containing ten rooms and three baths. This magnificent property is practically new and cost twelve thousand dollars to build. The lot is worth easily today two hundred dollars a foot, making a total value of twenty-four thousand dollars. If sold at once we can deliver for $15,500, half cash, on a few years; this lot will bring a fancy price in the meantime, for a business room this location cannot be improved upon. It is close in and an established neighborhood, with the best homes in our city surrounding it. Let us how it to you. It will need no talking. Snaps of this kind do not come often.

EIGHT ROOMS—SELECT LOCATION.

$5000.

You will agree with us that Gramercy Place, Wilshire district, is a most desirable location to live in, and that this is a remarkably low price to pay for an elevated, east front, 60-foot lot and a complete, new 8-room house, in this or any other desirable section. The grounds are all nicely improved with lawn, trees and flowers and wide cement drive extends to garage in rear; broad, pleasant veranda extends clear across front of house; reception hall; roomy comfortable living-room with plenty of large windows; dining-room gets all the morning sun, is attractively decorated and has built-in buffet; cozy den that could easily be made most inviting; a kitchen equipped with every convenience; fine large bedrooms with roomy closets and pleasing wall decorations; up-to-date bath with fine nickel plumbing. If this description answers your requirements you are fortunate to be able to secure the property at this price.

$6500.

BUNGALOW ON ARDMORE.

$6500.

This is a beautiful 9-room bungalow that will win any woman's complete admiration because of its convenient and compact arrangement; it is situated in the center of the Wilshire district, among most delightful surroundings and is an ideal Southern California home. Three comfortable, well-ventilated bedrooms are situated on the ground floor, with two more and sleeping porch upstairs; the large living-room is entered direct from the front porch and is beautifully finished in mahogany; at one end is a handsome stone mantel with art glass casement windows either side and a beamed decorated panel above it, wide front window, coat closet with full length mirror in door; the den adjoins and is finished in antique oak, one end is circular and is set with casement windows above built-in bookcases and writing desk; there are also casement windows in front; there is an artistic circular buffet across one end of dining room with long glass cabinets either side and set glass windows above, the walls in this room are paneled in oak about three feet with handsome paneling above to plate rail and figured paper above that; fine large buffet kitchen finished in white enamel and very conveniently arranged with hood for stove, woodstone sink, etc. A home that will delight you in more ways than one.

$7000.

10-ROOM WILSHIRE RESIDENCE.

$7000.

This is one of those substantial fine appearing homes that you have often admired in the Wilshire Boulevard district; the style of architecture is dignified and attractive; the front porch is of cement and trimmed with blue brick; the entire house is thoroughly well constructed and beautifully finished and decorated; from the front porch you enter the living-room, a fine large room, finished in mission style with beamed ceiling, genuine stone fireplace, built-in seats and mirror, from this room you may and paneled in Japanese grass cloth, which gives a very pleasant and restful effect; built-in seats and bookcases; the dining-room is as attractive as any room in the house, with large windows, oak paneling to plate rail, with figured paper above and a very attractive buffet with leaded glass doors; the buffet kitchen would delight any housewife, with its many windows and cupboards and spotless white enamel; has water heater and cool closet; there are laundry tubs, toilet, rear stairway to second floor; four delightful bedrooms and large balcony; the upstairs rooms all have fine maple flooring and white enamel finish; dainty wall thts in each room; large closets and many windows; excellent bath; linen closet; large cement basement; garage.

$17,500.

ELEVATED TERRACED CORNER.

$17,500.

This magnificent home is just one block from Wilshire Boulevard, in a most exclusive neighborhood; the lot is elevated and terraced and has both south and west exposure, making it the most desirable corner of the four; the cement porch is 12 feet wide; there is fine large garage in rear, big enough for two machines; the wall decorations throughout, both in oil on canvas; the reception room is paneled in mahogany and has handsome cluter light; broad archway to long spacious living-room finished in carefully trimmed mahogany; the Gruby tile mantel is enriched with mahogany trimmings; very broad windows, double doors to den, which is just back of the living-room; the beautiful dining-room with windows on front and side is loaded with sunlight all the morning; handsome oak paneling to plate rail; this room has elaborate eight-light cluster center fixture; center light in living-room is a magnificent Tiffany design; buffet is complete—effective design; breakfast-room is in dainty blue and white color effect; has lay window all one end and white enameled buffet; there are two roomy bedrooms, each finished in white enamel; cut-glass knobs and full-length mirrors in doors; closets equipped with built-in drawers; sleeping porch, 10 windows on three sides; one bedroom has large full-length mirror and side windows; two tile baths paneled high in pure white opalite—dressing case built in one with full-length mirror; the kitchen is a marvel, drawers and shelves all finished inside and out; butler's buffet with glass doors to shelves; bath, servant's room, closet, off screen porch; everything complete and of the very finest. A verbal description cannot possibly do justice to its many fine qualities—you should see it.

FOR SALE—

$30 PROFIT
IN THIRTY DAYS.
DO YOU WANT IT?

Here is your chance for a quick, sure profit, a profit of $30 in only thirty days—and on an original investment of only $25 in cash. It SOUNDS good and it is good—the best chance that I have been able to offer in months. This week I will sell lots in Arlington Square at only $625 and up, on terms of $25 cash and $10 monthly. They are worth more than I am asking. The surrounding property proves this. Be on Nov. 1st, lots will go up $30 or more—and a further advance will occur Dec. 1st. Come and see this property, and you will appreciate why it is worth more. It is in the Southwest, reached by several car lines, all with a five-cent fare. It has graded and oiled streets, cement walks and curbs, and wide parkings planted to large shade trees. Every city convenience is at hand—not one is missing. Come in and see me about this, and do it right away. Better still, you can go to the tract office. Take the Inglewood car; get off at Arlington Street. Fare five cents. Or you can see Mr. Potter, at the end of the Jefferson Street line. He has his automobile there and is ready to show you about.

FOR EXCHANGE—EQUITY IN SAN Francisco business property for Los Angeles city or county. 402 STIMSON BLOCK. Main 2855, A1643.

FOR SALE—
Business Property.

FOR SALE—
$50,000—

One of the best built brick and plastered apartment buildings in this city. New and leased for 10 years and paying over 8 per cent. net on the price. Owner would accept first-class clear city property up to $30,000 or $40,000, balance cash and mortgage.

$50,000—

A full size lot on Olive st., near 9th, at a low figure. Free and clear. Owner would accept vacant property (corner preferred,) at market figures, north of Washington st. and between Main and Figueroa sts. up to $15,000 or $20,000. Small cash payment and mortgage for remainder.

$45,000—

A close-in corner apartment building, paying 10 per cent. net on price. Would take as part payment well located lot between 6th and Pico sts., and near Figueroa up to $12,000 to $15,000. Stores on ground floor.

$45,000—

South Olive near 10th, 50x185, with alley in the rear. Improved and leased for 5 years at $225 a month. Very cheapest improved lot on South Olive st.

$30,000—

100-foot corner on W. 7th st., and east of Alvarado st. Full depth. Only $300 a foot. This corner, if improved, will pay 7 per cent. net on $600 a foot. 7th st. is due for an advance. The present day traffic is enormous, and is constantly increasing. Now is the time to buy 7th-street property.

$23,400—

A 60-foot corner on E. 8th st., between Main and San Pedro sts., for only $390 a foot. Absolutely cheaper than inside frontage. A like corner on E. 9th st. would cost you $1000 a foot. E. 8th at $390 a foot is a snap. Eighth street is to be widened 20 feet from Main to Central ave. Property is bound to advance.

$20,000—

A magnificent large east front lot on Alvarado st., near 9th and improved with a 10-room house. Nothing finer for apartments in the city. Lot alone practically worth price of entire property. Owner would accept other property up to $12,000 or $13,000, city lots or well located ranch property.

$16,000—

A large east front corner in West Adams Heights. It's a Washington street corner and east of Western ave. Contains a large 10-room modern house, renting for $70 a month. Owner would exchange for foothill acreage on near electric car line, up to $10,000, or for improved or unimproved Pasadena property, balance

FOR SALE—
FORTUNES IN APPLES
in the
OWENS VALLEY.

Think of a locality in California where apples, peaches, pears, apricots, cherries, in fact all kinds of deciduous fruits grow to perfection, where as high as 70 bushels of corn, 3 tons of alfalfa to a cutting, and as many as 500 bushels of potatoes to the acre have been grown; where as fine onions, wheat, barley, oats, red top and timothy are produced as one ever saw; where horses, cattle, hogs, chickens and turkeys are seen in large numbers; where is located one of the finest chicken ranches in the State on which 6,000 White Leghorn layers are kept busy producing gold pieces for their owner; where apples have been grown that sold in the Los Angeles market at from $2.75 to $4.50 per box; where a single apple tree yielded over 4 boxes of luscious fruit in a season; where ranchmen in addition to other products of their ranches, produce as high as $1500 worth of honey during the year and of so fine a quality as to have taken the premium at the Portland Fair; where there is and always will be a demand for ranch products at good prices; where there are no cold winters nor hot summers and no fogs; where an abundance of pure water for both domestic and irrigation purposes is available at all times; where the beneficence of nature is evidenced on every hand; where a man with a few acres of land need never fear of having to stand at his door with a shot gun to keep the wolves away, nor of going "over the hills to the Poor House," but where he can with industry become independent in a short time; I say, think of such a locality and you will have a picture of Owens Valley, for such it is, and then think of a ten-acre apple orchard yielding 4 cars of fruit in ten seventh years, and come and let me show you some of the products of this beautiful and fertile vale in which I am selling land for one-fourth cash, and the balance in one, two and three years, either unimproved or planted to the best variety of apples, and cared for for five years, at which time it will be delivered to the buyer in perfect condition.

S. D. MORRIS, 321 Byrne Building, Third and Broadway.

FOR SALE—

$100,000.00

300 ACRES.
300 ACRES.
300 ACRES.

One of the finest ranches in Riverside, four miles from Glenwood Hotel, and consists in part about 110 acres under oranges, lemons, olives and miscellaneous fruits, 100 acres suitable for oranges, 80 acres mountain lands, including rich granite with Salt Lake spur to property; 8-room residence, fine barns and all farming implements, 3 fine teams of mules, cows, etc., enough water from two springs for over 300 acres. The granite is in great demand; little cost to handle and large profits to be derived from it. This property can be handled on good terms. Owner will consider good income property up to $60,000 and take back mortgage for balance. If you are looking for a good ranch in a good location and at the right price this will fill the bill. Any party purchasing this property could not possibly spend one dollar in equipment or stock; cement ditches all over ranch to convey water from reservoirs for irrigating purposes.

FOR SALE—

40-ACRE TRACT
NEAR
NORWALK.

Suitable for alfalfa. Good six-room plastered house, well, windmill and tank, on La Mirada road only one mile from Santa Fe and Southern Pacific.

$6500—Terms.

JACOB STERN,
404 P. E. Bldg.

FOR SALE—
Country Property.

THE SON WOULD NOT WORK IT.

One of our most prominent lumbermen bought a 63-acre ranch last week for his young married son for which he paid

$30,000.

30 acres in walnuts. The balance in bottom lands covered with timber, the wood being worth a great deal of money.

The young man refuses to live on the ranch, and we are instructed to find a purchaser. The crop of nuts on the trees is estimated by an expert to be more than $3000, and is just ready to be picked. Will exchange for good city property, or sell it to a responsible party on long time, with small payment. Only 8 miles from city on good roads boulevard. An experienced man can secure a bargain.

R. A. ROWAN & CO.,
200 H. W. HELLMAN BLDG.

FOR SALE—
BEAN RANCH, $50 AN ACRE.

A 3000-acre ranch located on the Santa Fe Railroad for sale at $50 an acre. This ranch has 1600 or more acres set out to beans, 250 acres of rich bottom land (that can be used for the raising of celery,) 160 acres of fruit and eucalyptus trees, and the remainder of the land is used for the raising of grain.

There are three separate groups of ranch houses and barns on the place, and the largest of these is valued at $2500. The other two make elegant tenant quarters, and are in every way in first-class condition. A typical Southern California creek flows through the land, and the property (which is leased) has been paying the owner a good dividend.

The owner, who is an elderly eastern gentleman, has put this ranch on the market because the bother of coming out here to look after it has been too much for him. For any man who wants a substantial, money-making Southern California ranch, with the best of railroad facilities, this place is nearly ideal. If you are interested, let us hear from you the first of this next week, because it is too good a proposition to stay on the market for long.

WALKER E. BROWN,
537 Broadway Bldg.
A3067. Main 1362.

FOR SALE—
Must be sold

One hundred and thirty acres of the choicest land in Los Angeles county, EVERY ACRE GOOD. Flowing wells of water can be developed on any part of the property. Located 1¼ miles from the Pacific Electric car line, 45 minutes ride from city. Good well and pumping plant. Good house and barns. A choice location for an up-to-date dairy business. Desirable neighborhood. This property was leased this year and paid 7½ per cent. interest, on $60 land will do better next year. Purchaser can have immediate possession. Price $200 per acre 1-3 cash, balance 1, 2 and 3 years at 6 per cent. Owner is glad to show this property at any time. For full particulars call on or address,

Can give an extraordinary good deal.
B. W. BARTELS, 551 Mason Bldg.

Mexico.

FOR SALE—MEXICAN LANDS.
The demand for small tracts on our Santa Teresa de La Concordia has been so great that we have decided to quarter the sections, selling 160, 320 and 640-acre tracts at $5 per acre; easy terms. Don't fail to call and investigate them. Rates and excursion this week.

Some of our Sinaloa lands have gone up in price, but we still have some exceptional buys. Investigate before the raise comes. The rainy season is over, and so many are going down and buying that values are steadily increasing. Don't miss the profits that are to be made this fall. We have an ideal little ranch proposition close to a large town suitable for hog raising or dairy farming. Several hundred acres tillable. We can show you where this is a profitable proposition from the start. The price and terms will astonish you.

BEN W. McCLOSKEY & CO.,
700 Union Trust Building.

FOR SALE—MEXICO LANDS.
50,000 ACRES OF IRRIGABLE FARM LANDS.

In the state of Chihuahua, Mexico, four miles from railroad town of 7000 population; annual rainfall 18 inches; flowing stream on property now irrigating several hundred acres.

Water from immense power and irrigation storage reservoir available for irrigation also.

About 1000 cattle and 500 head of horses included in purchase price.

No better tract of land for subdivision or colonization in Mexico.

We can divert the property, good title, [illegible] balance one and two years, 6 per cent.

Country Property.

Owens River Lands.

FOR SALE—
OWENS VALLEY LANDS.

The greatest opportunity for the California farmer today is awaiting him in the Owens River Valley. This remarkably fertile spot possesses more attractive features than any land in California. The only land in California that will produce with equal results the big red winter apples that have made Washington, Oregon and Colorado famous, and have brought to the owners untold wealth. California farmers should learn real conditions of apple culture and appreciate that these lands under development, are equal in value to our choicest orange lands. The conditions which surround Owens River Valley are ideal in every particular. Not only is the climate nearly perfect and the scenery alit that one could desire, but the productiveness of the soil excels anything in California. Corn 15 feet high, with ears 18 inches long, running 70 bushels to the acre. Potatoes that run 500 bushels to the acre, equalling the famous Greeley, Colorado district, where such land is worth $500 an acre.

So remarkable is the productiveness of the soil in the Owens River Valley, that one should consider its value purely upon its ability to earn, rather than to compare it indifferently with acreage in any other section. There is just as much difference between the Owens River Valley land and the land that is ordinarily offered, as there is between the value of Hill st. and Broadway property. The Owens Valley land is 4000 feet above the sea, with just sufficient frost in winter to make a perfect red apple. Fogs, hail or gales are unknown. The supply of pure mountain water is unlimited and the completion of the new Southern Pacific railroad, which will be running in 20 days, makes the entire proposition ideal. You owe it to yourself to thoroughly investigate this property, for there will be without doubt a greater increase in value in the Owens River Valley in the next few years, than in any other point in California. In fact, we look for nothing short of a boom the coming year. If you own oranges or walnut land that you can sell at a good price, you will certainly be making a good move to dispose of it and go into this new country. We can doubtless help you in selling your land. We have done it for others. Drop into this office and talk with our representative, who is an old Rogue River apple man of 20 years experience and who has studied Owens Valley conditions and can give you a very intelligent description of our property, or drop us a postal and permit us to send you our literature. JAMES R. H. WAGNER-H. S. COOK, 329 South Hill st., Los Angeles, Cal.

OWENS RIVER VALLEY.

Last week we told you about the water in the Owens Valley. Now we will tell you something about the land. The information is largely decomposed granite and is very productive under irrigation. Alfalfa produces 5 tons to the cutting, wheat 60 bushels per acre, oats as much, and as good as Kansas or Iowa, barley and oats equally as good, and apples equal in quality and quantity to any section in the United States. Hogs, cattle and sheep are raised here that have no superior. Dairying is one of the best paying businesses in the valley. It is also the natural home of the fowl. We can sell you land in this favored section from $25 to $175 per acre according to location and improvements, all with plenty of gravity water for irrigation.

Come in and let us tell you about it and arrange with you for our representative in the Valley to give you an auto ride.

MUNK & TOMLINSON & DUARTE,
340 Byrne Building.

Ventura.

FOR SALE — VENTURA COUNTY lands produce more and better lemons, walnuts, beans, apricots and corn to the acre than those of any other county. Growers of these crops are becoming rich. You can do so if you invest now. Very little land in Ventura county for sale. Don't pass this opportunity up to purchase in a locality with such a rich combination of products and climate. The climate of Ventura has no equal in the State. If you are from "Missouri" we can show you.

$14,000—14 acres 4 miles north of Ventura city, 9 acres full bearing walnuts. Four acres full bearing apricots, eight acres young apricot trees, 5-room house, barn, windmill and tank. Over $2000 per year now. When young apricots are in bearing will easily pay $3000. Where can you beat it? Terms.

$5000—25 acres on Ventura avenue, planted to apricots, walnuts and lemons. All fine young thrifty trees. This place lies on the Ventura river and has a never-failing sheet of water for irrigating and boating. Splendid place for poultry. Could be made profitable summer resort. Has fairly good house and barn. Private road to railroad station, which brings in revenue to more than pay the interest. Terms.

$10,000—215 acres mesa land. Fine for beans, lemons or apples. 300 cords of wood on place. Ventura River runs along entire frontage. Oceans of water. About 100 acres fine pasture lands. This is a big snap. There is no more delightful place in the county. 5 miles from Courthouse. Terms.

$32,000—40 acres in walnuts under good water system, two miles west of Santa Paula. Trees are 15 years old. Soft shell variety. Soil is deep and of sandy loam character. Income this year $2300. Good barn, but house of little value. Terms 1-3 cash, balance 2 and 3 years 7 per cent.

$12,500—22½ acres within half mile of Santa Paula. 20 acres in 5-year-old walnuts, 2½ acres suitable for planting of alfalfa, 22½ acres ready for planting. This property joins one of the best producing lemon orchards in the State, and is suitable for any kind of development. Part of this orchard is intersected with good bearing fruit trees that can be removed as soon as the walnuts need the room. Has number one water right. Terms. This is a big snap.

We have other good properties in above county which will be worthy your attention.

Los Angeles County Lands.

$14,000—40 acres near Anaheim, fenced with small California house and barn. Pumping plant and well throwing 50 in. water. Fine for lemons, alfalfa or oranges. Can arrange easy terms. Close to electric and steam cars.

$1800—4½ acres near Benedict station with No. 1 water right and well on land. Good for alfalfa, lemons or oranges. Terms one-fourth cash, balance 6 per cent, covering three years.

We have other acreage from $128 to $400 per acre near electric car line between this city and Santa Ana. Come in and talk it over.

FLEMING & HUTCHISON,
415 Union Trust Bldg.

Coachella Valley.

FOR SALE—THE BIGGEST BARGAIN in Coachella Valley, 20 acres best soil-level and no alkali; good house and barn and new 25-H.P. pumping plant. This must be sold in the next 30 days and for only $450. The improvements cost over $2000, which makes the land less than $20 per acre. This is deeded land and near Indio.

ANOTHER BARGAIN. Ten acres adjoining the Government Experimental Station, very best of soil for only $225. A. M. HAWKINS, 616 Bumiller Bldg., 439 S. Broadway F7265.

COACHELLA VALLEY.

HAMMERS REALTY CO.

SUNDAY MORNING.

Classified Liners.

FOR SALE—
Lemon and Orange Groves.

FOR SALE—
VALENCIA ORANGES PAY WELL.
80 ACRES, $16,000. Terms.

CAN YOU MATCH IT?

No citrus fruits pay better than VALENCIA ORANGES. Given a district FREE FROM FROST, good water conditions, and good soil, you cannot help but make money. This grove is in the pink of condition, 2 years old, and has a big crop of tomatoes between the rows now. This same thing can be done next summer, paying more than the upkeep of the grove. At four years this grove will bring $1200 per acre easily, and you can find few groves in the same district at 6 years for less than $2000 per acre. At six years it will easily pay 25 per cent net on your investment and this will increase annually. This should appeal to anyone looking for an orange grove AS AN INVESTMENT. The LOCATION OF THIS GROVE IS RIGHT, being near the famous C. C. CHAPMAN prop[illegible]erties in the PLACENTIA DISTRICT. Railroad station within half a mile, and ALL CONDITIONS IDEAL. Water costs less than $5.00 per acre per year. It will pay you to investigate this property.

WE HAVE MANY OTHERS IN ALL DISTRICTS.

PLACENTIA.

PLACENTIA.

PLACENTIA.

If you are looking for an opening for a new store of almost any description, you will probably never have the same opportunity as presented in this advertisement.

The townsite of PLACENTIA which has just been laid out, will undoubtedly grow with greater rapidity than any town ever built in California, outside of a mining camp.

PLACENTIA is on the Santa Fe line three miles east of Fuller

Classified Liners.

Beverly Hills

Large Lots
80x165 to an alley, $1100 and upwards.
And there are others ranging from 75, 80, 90 and 100 feet front, and from 150 to 370 feet in depth.

LIKE NO OTHER PLACE

BEVERLY HILLS is a progressive, up-to-date residential district, laid out on a well-conceived, definite plan.

Beverly Hills has wide, winding, oil-tamped avenues, cement sidewalks, curbs and gutters, beautiful parks, in which we have already planted over 16,000 trees, with an additional 65,000 now growing in our nurseries, which will be used for future planting.

FOUNTAINS AND MAGNIFICENT WATER GARDENS, rare Egyptian lotus and other wild lilies, gold fish, etc. A perfect sewerage system, all without expense to the property holder.

When you buy a lot at Beverly Hills all these grand improvements, costing over $350,000 to date, are included free, and where they are not yet completed you will know just what they will be.

For home purposes and on a basis of a profitable investment, there is a decided satisfaction in knowing that you live in the most magnificent subdivision in California. Present prices are low, and those buying will get the full benefit of the rapid increase in values as our improvement plans near completion.

It does not pay to hesitate and put it off. Go today, and you will then understand our plans and will be as enthusiastic as ourselves about Beverly's future.

HOBBLE GOWN FAVORS THE ENGLISH WOMEN

Lady Duff Gordon and New York Modiste Fail to Agree About Skirt

LONDON, Oct. 1.—Fashion circles in Europe and America are now divided into two camps—those who regard the "hobble" skirt as imparting a grace to the woman's figure which no other form of dress has ever yet devised, and those who look on it with horror as rendering manhood ridiculous and the slave a fad which may even lead to physical injury.

Lady Duff-Gordon has decreed in the Daily Express the abolition of the "hobble," and she is a power in the fashions of two continents. Charles Kurzman, the New York modiste, flatly combats her, and will fight all his resources to maintain the supremacy of the "hobble" among fashionable people in New York throughout the winter.

Mr. Kurzman will have an ally on this side in Mr. Selfridge, the manager whose dress department told an Express representative yesterday that tight skirts are to be the prevailing fashion.

"Though to my mind," he said, "the 'hobble' is not becoming to the French, American or German women on account of their broader hips, it adds grace and charm to the slimmer figure of the average Englishwoman. Short people especially welcome the new fashion because it undoubtedly has the appearance of increasing their height.

"Women are naturally anxious to look as becoming as possible, and any fashion which helps toward this is not likely to be suddenly discarded. As an instance I may mention hair pads. Women who formerly were compelled to wear their hair quite flat now find that their looks are greatly improved by the stylish coiffures which hair pads render possible. Hair pads thus remain, like the veil, a permanent feature of dress among many women.

"For the same reason the 'hobble' skirt, which greatly adds to the charm of so many women, is not likely to be suddenly discarded.

"When I speak of the 'hobble' skirt I do not mean the exaggerated 'hobble' which compels a woman to hop when she would like to run. Those are not worn by really fashionable people.

"Here, for instance," the manager remarked, picking up a sample of the latest style, "is a skirt which measures about one and a half yard in circumference. That does not actually hinder walking, but it is probably two yards narrower than the old-fashioned ski-ts.

"From what I can see, this modified 'hobble' is likely to rule the winter fashion."

Amid the clamor of the "hobble-ites" and the "anti-hobble-ites" one voice remains silent. An Express representative who endeavored to obtain from Messrs. Paquin the secret of their new winter design in skirts was received with almost open-mouthed astonishment.

"Not a word can be said," the manager replied, "before September 15. It is a secret until then."

Mme. Paquin, he admitted cautiously, was engaged on models at the present moment, but what was the probable outcome he refused to say.

One humorous critic of the "hobble" declares that the effect is to give women two waists, one in the usual place and the other round the knee.

MYSTERY VEILS DEATH OF MYSTERIOUS WOMAN

Foundling Who Eloped from Asylum Killed by Stabbing

PARIS, Oct. 1.—A mysterious murder was committed at the village of Vallauris near Grasse several nights since. The body of Senora Corradini, a beautiful young woman, was found lying in front of the residence of a wealthy farmer named Cotta. She had received thirty knife wounds.

Mystery surrounded Senora Corradini's life as well as her death. She was found on the steps of the foundling asylum at Onaglia, across the Italian frontier, when only a few months old. Notes to the value of $150 were pinned to her dress and a card bearing the words, "Por Nina."

She was known only as "Nina" at the asylum, where she lived until eighteen months ago, when she eloped with an Italian workman named Corradini, who was employed in the institution.

The couple settled at Vallauris, where Cotta, who is a widower with two children, fell in love with the woman. She complained to the village priest a few days ago regarding his attentions.

Nothing is known concerning Senora Carradini's movements on the night of the murder. She left her home without her husband's knowledge. When her body was found she had been dead several hours. Cotta was later found lying on a bed in one of the rooms of his residence, shot through the chest. He says that he heard shrieks for help, and when he rushed to the street a man fired at him. It is believed, however, that he killed Senora Corradini and then attempted suicide.

KING'S DAUGHTERS FLEE ON MEETING SUN-BATHER

King of Saxony Gives Drubbing to Scantily Costumed Faddist

BERLIN, Oct. 1.—Somewhat overzealous enthusiasm for hygiene has been the cause of a distressing incident in Saxony.

An elderly gentleman who is an earnest student of the rational life has been led, as the result of a long investigation of the subject, to attach great importance to the beneficent action of sunlight upon the human body, with a view to securing for himself the advantages of this treatment he retired to a lonely cottage in the woods near the well known country resort of Raschenberg. Here in the solitude of the forest it has recently been his custom to make excursions attired in a "reform dress" which he has designed for his own use.

In this costume some of the more important aims of civilized dress have been subordinated to the hygienic consideration of allowing uninterrupted access to the body of the rays of the sun. The treatment was justified by the benefit experienced from it, which had been very marked.

One day, however, as the elderly health culturist was taking his daily walk in the seclusion demanded by his dress he unexpectedly met the king of Saxony and his two daughters, who were also taking a stroll through the woods from the royal hunting box of Moritsburg. Inured to self control though the two princesses are by a long course of [illegible] they had [illegible] the agonized [illegible] simplicity [illegible] fled down the [illegible]

The king him[illegible] upon the tremb[illegible] ing a stout wal[illegible] ening manner [illegible] modesty, the [illegible] tempted to ex[illegible]

KING'S DAUGHTERS FLEE ON MEETING SUN-BATHER

King of Saxony Gives Drubbing to Scantily Costumed Faddist

BERLIN, Oct. 1.—Somewhat overzealous enthusiasm for hygiene has been the cause of a distressing incident in Saxony.

An elderly gentleman who is an earnest student of the rational life has been led, as the result of a long investigation of the subject, to attach great importance to the beneficent action of sunlight upon the human body, with a view to securing for himself the advantages of this treatment he retired to a lonely cottage in the woods near the well known country resort of Marienberg. Here in the solitude of the forest it has recently been his custom to make excursions attired in a 'sunburn dress' which he has designed for his own use.

In this costume some of the more important aims of civilized dress have been subordinated to the hygienic consideration of allowing uninterrupted access to the body of the rays of the sun.

The treatment was justified by the benefit experienced from it, which had been very marked.

One day, however, as the elderly health culturist was taking his daily walk in the seclusion demanded by his dress he unexpectedly met the king of Saxony and his two daughters, who were also taking a stroll through the woods from the royal hunting box of Moritzburg. Inured to self control though the two princesses are by a long course of training for public life, they had caught only one glimpse of the agonized exponent of sartorial simplicity when they screamed and fled down the nearest forest path.

The king himself advanced furiously upon the trembling sun-bather, grasping a stout walking stick in a threatening manner. Now crimson with modesty, the latter stutteringly attempted to explain to his sovereign the reason of his lack of dress. The infuriated monarch, however, would hear no excuses, and, having taken the name and address of his primitively attired subject and given him a thump with his cane, he strode off after his fleeing daughters, with a threat that he would at once set in motion the extreme rigors of the law against such an unpardonable breach of the usual conventions of outdoor costume.

LIST IRISH J. P.'S

DUBLIN, Oct. 1.—A return has just been issued showing the religious denominations of persons at present holding the commission of justice of the peace in the counties and boroughs of Ireland. The totals are: Protestants of all denominations, 3712; Roman Catholics, 2116; other religious denominations, 6; Jews, 8; unknown, 9—a grand total of 5853.

The money loss to The Times is nothing, but the breath of life cannot be breathed into the nostrils of the boys who died at their posts. That is a bereavement that cannot be squared by dollars and cents. To the families of the martyred dead, The Times extends its sympathy and condolence, fully appreciating in this hour how weak and ineffective it all is.

J. W. Robinson Company

FRANCE GUARDS RICH RIBBONS

Prime Minister Issues Severe Circular on Alleged Traffic in Decorations

THREATS OF LEGAL ACTION

Paris Authorities Doubt if Latest Decision Will Be Sustained in Courts

PARIS, Oct. 1.—Begged once by a friend to give the red ribbon to an old man whose dearest wish it was to be decorated, and who was bedridden, Gambetta said, "Does he never leave his room?" "Never," was the reply. "Then tell him to put a red ribbon in his buttonhole straightaway." If he gave that advice today Gambetta would be compounding a felony. M. Briand, the prime minister, has issued a severe circular, which the prefect of police has backed up with threatening comments, enjoining upon all persons in public authority to take immediate steps to denounce, apprehend or otherwise bring to book any individual either wearing in his buttonhole the ribbon of an order to which he has no right, or even wearing any ribbon other than that of an officially recognised order which he possesses. This is a cruel blow for a great number of persons in a country where titles are no longer conferred. In the United States a French friend of mine was once at a public banquet, sitting next to an American who wore a large star on his coat. "I must apologise," my friend politely said, "for not knowing what order it is you are wearing, sir."

"No harm done; it is the badge of a secret society," answered the wearer.

In France the Society for the Promotion of Virtue bestows a black and green ribbon; the Last Farewell Life Saving society, a black and red one; the National Humane society a red, white and blue one; the Society of the Public Weal a blue and green one; the Dispensary of Boyer, blue and red; the Pantin Help society, violet, with a red edge; the Humanitarian league, red edged with blue; the Polytechnic Life Saving society, red and white, and a score more bodies give others of many colors. Henceforth M. Briand, backed by M. Lepine, proclaimed that the wearing of any of these ribbons will be illegal. Any man or woman sporting them will be called up as the writer Villiers de l'Isle Adam once was. He used to wear a different colored ribbon in his buttonhole on different days, according to the mood he was in—pale pink when he was optimistic, white when he felt particularly good, dark purple when he was gloomy. Unfortunately, one day when he had high spirits and had put a red ribbon in his buttonhole he was summoned for illegally wearing the legion of honor, which he was far too little of a popular writer ever to have received. The difference made by the new measures is that Villiers would nowadays be held for wearing any ribbon at all, even one of no known order. But some legal authorities seem doubtful whether M. Briand and M. Lepine are not acting ultra vires. "Do buttonholes belong to the government?" asks one rebellious man. Even if the council of the legion of honor it is seriously questioned whether anyone can be legally forbidden to put in his buttonhole any ribbon he likes, so long as it is not that of any known order.

WOMEN CAB DRIVERS TREAT HORSES BETTER THAN MEN

League for Animals' Protection Presents Its Report

PARIS, Oct. 1.—The league for the protection of horses, which keeps a sharp eye upon the doings of the Paris cabmen, in a report which it has just issued has a good word to say for the "femme cocher," of whom there is a large number.

The officers of the league have found that the women treat their horses much better and show them more consideration than do their masculine rivals. It is very rarely that the women drivers use the whip, and the inspectors of the league say they have often found women caressing their horses while waiting for a fare, and even offering tit-bits in the shape of lumps of sugar.

With the men the whip is the only argument. Whenever a Paris cab horse takes it into his head to bolt—for it is generally too weak physically to run very fast—it has been found that the poor animal has been tortured into madness by the lash.

The moral of it all is that Paris, which has not been unjustly called the "hell of the cab horse," could be made a little brighter if the police would enforce the law against the ill treatment of animals.

FRENCH PREMIER 'LOST'; TRACED BY DETECTIVE

M. Briand 'Found' at Fishing Village Wading in Water

PARIS, Oct. 1.—Briand, the French prime minister, who returned recently from a holiday, was lost for a week and was finally discovered in the village of Pacy-sur-Fure.

M. Briand wanted a real holiday, and kept his movements so secret that he departed from Paris without leaving his address even with his private secretary. While he was away several important questions arose, and it was absolutely necessary for the other members of the government to find their chief. They hunted for him for a week, and eventually applied to the police to find him.

A detective discovered him at Pacy dressed as a French fisherman, in an immense beehive straw hat, an alpaca coat, soft shirt without a collar and trousers rolled up to the knees, showing bare legs and feet.

The detective was clever enough not to recognise the premier openly, but talked to him about fishing, and gradually led the conversation round to politics and the disappearance of M. Briand, which, he said, was public talk in Paris.

M. Briand looked suspicious and said he had heard nothing about it, but that same evening he telephoned to his secretary and told him of his whereabouts.

ABRUZZI HEADS LIST

LONDON, Oct. 1.—The Duke of Abruzzi heads the list of mountain climbers with 24,600 feet. Then follow W. W. Graham, 23,975 feet; Rubenson and Monrad-Aas, 23,900 feet; Dr. T. G. Longstaff, 23,406 feet, and Dr. Hunter Workman, 23,294 feet. All these climbs were accomplished in the Himalayas.

AEROPLANES TO BE SEA SCOUTS FOR FRANCE

PARIS, Sept. 13.—"Seven French naval officers will be licensed airmen in a few weeks," declares the minister of the marine, Admiral De Lapeyere. "This is only the beginning.

"I want the French fleet to be the first in the world as regards aerial navigation, as it is for submarine navigation. At each of our naval centers we must have an airship and some aeroplanes to explore the sea around the ports, and, when necessary, to recognise the position of submarine mines. Aeroplanes will be our scouts. For the price of a cruiser we can have thousands of them.

"At Toulon I have just given orders for the installation of aeroplane sheds close to the sea. Everything necessary will be done as soon as possible. Then a competition will be opened for a 'marine aeroplane.'"

FIND $5000 CONCEALED IN TEACUPS AND POTS

DUBLIN, Oct. 1.—A sum of $5000 in gold has been found hidden in eggcups, teapots, teacups and under the bed at an artisan's dwelling in Ardee road, Bray, County Wicklow, occupied by an old woman named Mrs. Jack, who for a long time was employed by the Rathdown board of guardians as a midwife.

OUR COTTON FOR JAPAN.

First Shipment of Imperial Valley Product Now on Way and Destined for Orient.

The first shipment of Imperial Valley cotton to Japan is on its way. H. Nose, representative of the great Japanese cotton manufacturing concern, Gosho-Goshi-Kaisha, registered yesterday at the Alexandria from Osaka. He came up from the valley where he purchased fifty bales of cotton which will be shipped at once.

"Fifty bales is not much," he said, "expect to be used as a sample. We intend in our mills to try out the cotton and then if it meets all our requirements we are ready to take all that we can obtain, the entire crop if it will be sold us. Previous to going to Imperial Valley I was in Texas where I made contracts for a great amount of the staple which will be shipped through California to the Orient."

Speaking of the development of the cotton industry in Southern California, Mr. Nose said that it is wonderful and that the product apparently was of the very finest texture, although a trifle shorter in fibre. "We can use thousands of bales of the product and, if the shipment can be made sufficiently large, our vessels will come to San Pedro harbor rather than going much farther north as they are doing at present to take on the cargo."

Talks on Teeth

By REX DENTAL CO.
(Incorporated.)

Teeth All Gone

One of the many cases that came to us which seemed all but hopeless was that of an old gentleman who came to one of our offices in the month of January of this year to have a set of ALVEOLAR teeth put in his mouth. We require two or more teeth in either jaw before we will undertake the work and guarantee it. We don't ask that they be sound or even firm in the alveoli, for we cure the cause of loose teeth, the much dreaded Pyorrhea (we believe we are the only dentists in the world who even claim to cure this disease).

But this man had nothing left but some stumps, and he had been figuring with his dentist for a gold plate.

We made him this proposition, viz., that we would put in the ALVEOLAR teeth at our regular price and if they were not successful we would remove them and make him a gold plate free of charge at any time in the future. He was delighted with the proposal and agreed to it instantly, remarking that we were the "whitest" people he had ever come across in the dental business.

The latest report from him is that we don't need to worry about the gold plate, for his new teeth are as firm as a rock and he is giving us all the free advertising he possibly can.

The reason we mention this case is to show that we are strong believers in the "Square Deal," and just as particular about guaranteeing satisfaction as any merchant in Los Angeles.

We sell you a set of teeth and guarantee that they will satisfy you. The guarantee is backed by ample capital. We are perfectly safe in maknig it and always do make it.

The ALVEOLAR METHOD is a new departure, a change from old methods of supplying missing teeth. The old way was a burdensome partial plate for a bridge, which was anchored between the teeth and tortured the wearer from the time it went in until it had destroyed the teeth it was anchored to and had to come out.

Both methods are now supplanted by the ALVEOLAR METHOD, which supplies all the missing teeth and gives the one who has them a set of teeth that are as satisfactory as NATURE'S.

The work is painless and permanent.

FREE TO YOU.—We want to send you a beautiful little book describing all diseases of the mouth. Send today.

Preferably, we would rather have you call and have your teeth examined.

Underwriters' Announcement

CALIFORNIA CONSOLIDATED OIL CO.

(INCORPORATED UNDER THE LAWS OF CALIFORNIA, SEPTEMBER, 1910.) (PRINCIPAL PLACE OF BUSINESS, SAN FRANCISCO, CALIFORNIA.)

This corporation has a capital stock of Ten Million (10,000,000) Shares, each of the par value of $1.00.

The Metropolis Trust and Savings Bank of San Francisco will act as transfer agent in California, and arrangements will shortly be perfected for a similar service in New York City.

OFFICERS

President, REAR ADMIRAL ROBLEY D. EVANS, U. S. N., retired, Washington, D. C.
Vice President, ROBERT S. McCREERY, New York City.
Treasurer, THEODORE P. GILMAN, New York City.
Secretary, ROBERT LEE DUNN, New York City.
Assistant Secretary, JAMES A. CRUIKSHANK, San Francisco.

DIRECTORS

REAR ADMIRAL ROBLEY D. EVANS, U. S. N., retired.
ROBERT S. McCREERY, Vice President McCreery Realty Corporation.
THEODORE P. GILMAN, ex-controller state of New York and president General Electric Inspection Co., N. Y., New York City. Also president Flower Waste and Packing Co., New York City.
HON. JOHN W. MITCHELL, attorney for the Lankershim estate, Los Angeles, Cal.
HON. MEREDITH P. SNYDER, president California Savings bank; member Los Angeles Clearing House committee; three times mayor of Los Angeles, Cal.
FRANK N. FISH, cashier Metropolis Trust and Savings bank, San Francisco, Cal.
ROBERT LEE DUNN, managing director Lincoln Memorial Endowment association, New York City.

This corporation has been organized for the purpose of acquiring and developing proven California oil properties, constructing pipe lines, and such other business as appertains to the oil industry. It is planned to make this one of the biggest institutions in the west.

The management of this company is vested in a board of directors, consisting of men whose reputations for integrity, business success and conservative judgment is well known. They have personally visited the properties to be acquired. Several of the members of the board are men of national reputation. A brief mention of their distinguished places in the business world will be found elsewhere.

The affairs of the company will be administered with a view to constant building up of the properties along lines justified by conservative judgment. Aggressive and progressive policies will be followed whereever such policies have the approval of the best experts available. The men who will develop and operate the proposed properties which the company will acquire are among the best posted experts in the oil business in this country, and the company will have the benefit of their judgment during the first year of its operation of the properties.

SAFEGUARDING THE STOCKHOLDER

The investor in this company will be protected in every possible respect. There will be no preferred stock. There will be no bonded indebtedness. Every stockholder enters the company on the same basis. The men associated in the management of the company are recognized leaders in banking and commercial circles and are connected with some of the best conducted enterprises in the country.

The oil fields of California are probably the richest in the world. Owing to their geographical position the value of their output will increase as the consumption of oil for domestic, manufacturing and shipping purposes becomes more general. Already the industry has been transferred from the plane of speculation into that of a solid and substantial addition to the world's list of dignified and enduring business enterprises. This change has been achieved through the

STATEMENT BY REAR ADMIRAL EVANS

"I have long regarded the oil industry as one of the most important and promising of the newer lines of trade. Without intending to enter the business of producing or selling oil, I have been carefully investigating, for several years, every available source of information on the subject, first because of my interest in the use of oil as a fuel for naval vessels, and later because of my conviction that the future of the commodity would make it one of the most important subjects in the trade of the world.

"Many interesting business opportunities have come to me since my retirement from active service in the navy, two years ago. Fifty years of service in a calling which is more than ordinarily exacting, renders any man of active temperament unfitted to idleness. It has been my intention, when the right opportunity occurred, to connect myself with some enterprise of sufficient size and offering sufficient promise for the future to appeal to my best energies. That opportunity is present in the organization of the California Consolidated Oil Company.

"After personally visiting and carefully investigating the proposed properties of the company, their books, contracts and options, I have accepted the presidency of the company and have invested my own money in its shares. I will personally direct its affairs. This is the only oil company with which I am connected."

steady, increasing yield of the oil fields of the world and the entrance into the industry of men whose business reputation is a guarantee of the integrity of the gigantic new work.

PROPERTY

The properties proposed to be operated by the California Consolidated Oil company are as follows:

MASCOT, located in the Midway district. This property consists of one hundred and sixty acres equipped with thirty-four wells, with four additional wells being drilled. In the judgment of the best oil experts of California, the property will support sixty wells. The present output is 90,000 barrels monthly, which provides a net income of $360,000 yearly. With the addition of twenty-four wells, a probable net income of at least $720,000 may be expected.

The PREMIER, located in Coalinga oil fields. This property consists of one hundred and sixty acres. There are fourteen producing wells, one now being drilled and one ready for drilling. These sixteen wells, basing the figures upon the present production of the fourteen now producing, will yield at least 864,000 barrels yearly, which means a net income of $240,000 yearly. In the opinion of experts, this property will support eighty wells, which will provide a net income of $960,000 yearly.

These two properties are already upon a dividend paying basis.

The YELLOWSTONE OIL COMPANY, with holdings in the Kern river, Sunset and McKittrick fields. This property consists of two hundred and twenty-five acres all leased, except ten acres being operated by the company containing five wells.

The present net earnings of the properties, proposed to be acquired, is sufficient to guarantee every stockholder a substantial return on his investment, regardless of future development.

A syndicate of underwriters, composed of bankers and reputable business men, has been organized for the purpose of providing funds with which to meet the payments on these properties. Instead of following the usual practice of allotting this stock to only a half dozen wealthy men, it has been decided to allow our clients and the readers of The Herald an opportunity to join this syndicate and secure an interest in this corporation at the very first price. Readers of The Herald will be given every benefit and advantage of this underwriters' syndicate. We believe that by giving you this opportunity now, we will secure the support and co-operation of practically all the great army of Herald readers. We are confident that all who investigate this proposition in detail will be keen to appreciate the fact that it is in reality an opportunity of a lifetime.

The stock of this corporation will be offered for sale in the leading financial centers of the world just as quickly as this underwriters' syndicate is closed. The price at which the stock will be offered at that time will be greatly in excess of the present price for which the underwriters' syndicate members can get their stock.

Each member of the syndicate is allowed to purchase anywhere from one hundred (100) to twenty thousand (20,000) shares at this price, which has been placed at 60 cents per share, par value $1.00.

It is being rapidly absorbed.

We urge you to give the matter your immediate attention.

Telegraphic reservations will be accepted and remittance may follow by mail.

GRIM REAPER.

DEATH STALKS. IN VANDERBILT

One Dead and Half Score Injured in Race.

Harold Stone Terribly Hurt in Columbia Car.

Grant In Alco Is Winner of Auto Classic.

[ASSOCIATED PRESS DAY REPORT.]

MOTOR PARKWAY (L. I.) Oct. 1.—Harry F. Grant, driving Alco car No. 18, won the Vanderbilt cup race today. Joseph Dawson, driving car No. 25, a Marmon, finished second, and John Aitken, driving car No. 16, National, was third. Grant's time was 4h. 15m. 58 39-100s. Aitken's time for third position was 4h. 17m. 27 72-100s.

Grants average for the race was 65.4 miles per hour. The previous record was 64.3 miles an hour, made by George Robertson in 1908.

The Massepequa trophy, run over ten laps of the course, 16.40 miles, was won by car No. 51, Cole, driven by William Endicott. Time 2h. 15m. 42 1-5s.

The Wheatley Hills sweepstakes, run over fifteen laps, or 159.60 miles of the course, was won by No. 46, a Falcar, driven by J. F. Gainaw, in 3h. 15m. 6 4-5s. No. 41, a Falcar, driven by W. H. Pearce, was second.

POPE MAN KILLED.

Ferdinand d'Ziuba, New York manager for the Pope-Hartford Automobile Company, was killed on his way to the Vanderbilt cup race and five other persons who were in the car with him were injured, Mrs. d'Ziuba, wife of the dead man, seriously. His rear truck struck a telegraph pole.

The Abbott-Detroit, No. 56, struck a telegraph pole, throwing out Driver V. Padula and Mechanician John Barber, and seriously injuring both. Padula's injuries are thought to be fatal.

Harold Stone, driving car No. 12, a Columbia, was terribly injured and his mechanician, Bacon, was picked up unconscious when the car turned turtle near Hicksville.

Car No. 47, a Merner, ran into a telegraph pole at Meadow Brook bridge and injured the mechanician, possibly fatally.

Car. No. 17, rounding a turn at Westbury, struck a spectator, Thomas Miller of College Point, L. I. Miller was seriously injured. The car swept on without stopping.

Car. No. 54, the Lancia, driven by William Knipper, turned over at the Massepequa Lodge and Knipper's left leg was broken. His mechanician was uninjured.

MAY REINSTATE ROWING.

Stanford Student Body Is Considering Advisability of Again Fostering Sport.

STANFORD UNIVERSITY, Sept. 30.—Rowing may be reinstated as a university sport at Stanford under the supervision of the student body. Officials of the Lagunita Boat Club, which took up the sport after it was dropped by the student body last year, presented the proposition of the student body's again fostering it, at a meeting of the executive committee yesterday and a special committee was appointed to consider the matter.

The two principal reasons given for dropping the sport last year were that it as too expensive and that rowing was likely to result in injurious consequences to the oarsmen.

The Lagunita Club closed last season with a surplus in the treasury, despite the fact that it only had a few hundred dollars with which to meet expenses. It had a very successful season, the crew defeating California and the men receiving varsity emblems for their performances. The sentiment that condemned the sport as injurious has to a great extent faded away.

The students who are endeavoring to have the student body reassume control of rowing propose that the services of a professional coach be dispensed with in order that the expenses will not be as high. Last spring a student coaching committee had in charge the direction of the work and the system was a success.

NEW RECORDS RECOGNIZED.

Stanford Track Marks Are Changed On Official List—Horton Gets Four Stars.

STANFORD UNIVERSITY, Sept. 30.—Four new Stanford track records were officially recognized by the executive committee of the student body yesterday. They follow:

L. S. Scott, pole vault, 12 ft. ⅛ in.; world's record made at University of Colorado, May 27, 1910.

Four-man relay record, time 3 min., 23 1-5 secs.; made at middle-western conference meet last June by Tom Coleman, C. C. Taylor, H. R. Stolz and W. M. Wyman.

G. L. Horine, high jump, 6 ft. 2⅝ in.; made at Boulder, Colo., May 25, 1910.

Harry Horton was awarded four stars for having won the "S" four times in track meets.

The executive committee elected J. E. Thompson, '11, H. B. Sepulveda, '12, and S. C. Kennedy, '12, yell leaders for the present year. Thompson will have charge of the cheering and the other men will act as his assistants.

Season Tickets Unpopular.

STANFORD UNIVERSITY, Sept. 29.—The attempt to sell season tickets for the football season has been abandoned, as but few students were willing to "come through" with the price. Out of 800 students solicited, only 229 were willing to buy the season pasteboards. The executive committee decided to institute the system if 300 students purchased the season tickets.

IN THE PUBLIC SCHOOLS.

The San Pedro High School opened on September 12th with a larger enrollment than ever before and with the same faculty who served so satisfactorily last year, with the addition of Mr. Kienholz in charge of Biology.

Miss Whitehead, who spent her vacation this summer traveling in England and on the continent, will henceforth teach music and drawing solely in the high school, instead of in the grammar schools here and in Wilmington as heretofore. In England Miss Whitehead studied boy choir music and Cathedral organ music in the principal cathedrals. On the continent her musical experience consisted principally of opera and orchestra study. She also attended the Passion Play at Oberammergau.

This year Mr. Cheney, physical director of Los Angeles High Schools will give two entire days of his time to furthering athletics here and coaching the football team. Admirable spirit has been shown by the boys and the fact that they are not afraid of hard work is evinced by their constant and conscientious training. In addition to the last year's men there is much new material which is showing up well under the combined efforts of Mr. Cheney and Mr. Keinholz. Mr. Cheney always inspires the boys with enthusiasm and Mr. Keinholz has turned out championship teams from several Eastern colleges. San Pedro is proud of her team and has reason to expect great things during the season.

All the graduates of 1910 have started out to attain the higher education. Miss Jessie Gibbs, after a short vacation, contemplates continuing her musical work, George Long and Percy Allan will enter college, Margaretha Mullen, Mary Poggi and Arthur Hamilton are attending U. S. C. and will later enter the University of California, Edith Coombs, Ebba Johnson, Nellie McLaughlin and Elizabeth Thompson are preparing to teach by taking a course at the State Normal. Charles Young is taking a course in Medicine at U. S. C., Elise Maloy is to attend the class for nurses at Clara Barton Hospital and Jessie McGlashan is a student of Dennison University, Granville, Ohio.

The fact that each and every graduate of the class of '10 is striving to accomplish something of value in the world, reflects great credit upon San Pedro High School.

Los Angeles High School is equipped better than ever in the department of natural science, in which branch the school has always been strong.

A visit to this department is interesting to the casual observer and if by chance he is so fortunate as to have a chat with the head of the Natural Science department, Mr. Culver, his eyes are opened to many new points of view.

"The chief purpose of the Biological department of Los Angeles High School," said Mr. Culver, "is to enable its pupils to gain a knowledge of the fundamental principles of life and especially a useful acquaintanceship with the great outdoors world.

"Almost every human being," he continued, "is interested in living things. A majority of mankind is eager to learn about the world of nature; but few ever do. Such knowledge once acquired helps to make city life interesting and country life profitable. Unfortunately for the real success of much so-called "nature work," many engaged in such teaching have failed to realize the difference between life and death. Instead of taking students out into the living world, they have erected animal morgues and with a few preserved or bloody specimens have devitalized a subject rich with the red blood of life.

"Pupils have peered into the insides of dead things, learned a few stock phrases and committed to memory abstract theories and have not worked out principles for themselves, nor made application of them to the real world. Their biological world is fenced in by laboratory walls or shut between the covers of some more or less dull book. They go out of such work wondering what it is all about, their only satisfaction the hope that they have gained one more credit for college. It does not add to the happiness of the world or to the usefulness of a boy if his zoology gives him nothing but a knowledge of dead grasshoppers, dissected pigeons, or a vague idea of amoeba; but it does help if he knows about living things; if he understands the relationships of life; if he knows the anatomy of the grasshopper and also works out a reason for its peculiar structure and coloration. When he begins to understand the part the grasshopper plays in the economy of life and finally begins to link together all life, past and present, he begins to feel a sympathy with all creation. He sees the relationship between cause and effect, learns that things do not happen by chance, and observe with intelligence and acts of wisdom.

"One well trained observer," said the scientist with enthusiasm, "who can pass along to others what his eye has seen and his brain has digested, is a boon to mankind. The world is better because of such men as Agassiz, Dr. Jordan, Prof. Le Conte, John Burroughs and John Muir.

"I'm afraid I've taken too many words to tell you that our work here deals primarily with living things. Our laboratory specimens, and we have a wonderfully fine collection, are used simply as reminders of the living forms. We wish our pupils to learn to know life itself, sanely and without sentimentality. We want them to be sympathetic and full of appreciation, but we want them to see straight.

"I venture to say," continued Mr. Culver, "that nearly every one of your friends interested in wild birds and all would listen to any one who could talk intelligently about birds; yet how few really know anything about even one species of wild birds!

That class, which you see at work now, is actually learning about birds. Soon they will be able to identify many of our Southern California birds, and more than that, they will be able to discuss them intelligently.

Later they will study other animal forms.

There is more misinformation about that gila monster" (pointing to a living specimen securely caged) "than regarding any other reptile; but this class will learn considerable about him. We try to keep as many live things as possible in the laboratory, and in the spring our work is supplemented with outdoor observations. Last year the class identified more than ten species of wild birds right here on these grounds."

"What is true here, applies equally to the work in botany. One has but to compare the present home-like appearance of our campus, with the barrenness of a few years ago, to realize this. I consider Miss Palmer one of the foremost teachers of botany in Southern California. Her enthusiasm and that of her class, combined with the helpful appreciation of Prof. Housh, has made our local wilderness bloom. The classes in botany have so increased in size that it became necessary to add a new teacher, and Miss Durkee, a graduate from Stanford, has been secured.

"Mr. Gilbert's well-known work with the La Brea fossils has done much to give us a clear understanding of fauna that has passed away.

"More and more," said Mr. Culver, in closing his discourse, "our work in physiology must deal—not with tiresome enumeration of technical details, but with hygienic matters. Pupils must be taught the essentials of right living and good health."

At Polytechnic all the student body organizations are in working order, and everything is going on well in spite of the interruptions of carpenters, who are at work in the unfinished parts of the buildings.

Prof. Dunn, the principal, is an admirer of Prof. Francis, and it is his expressed intention to, so far as possible, carry out the views of his predecessor. In regard to athletics, the policy inaugurated by Mr. Francis in favor of interclass, rather than interscholastic contests, will be maintained. The idea is that in the former a greater number of men receive development than where a few become prominent, while the general body of the school remains inactive.

And Aud call was planned with a talk from John G. Woolley for Thursday, but the sudden illness of Mr. Woolley compelled him to cancel his appointment.

It is the plan to have an Aud call for girls next week, when Prof. Francis returns from San Francisco.

Superintendent Francis went to San Francisco on Friday morning to attend the meeting of the State Educational Council. He will be absent two or three days.

At the Manual Arts High School the boys are giving their spare time to the preparation of the athletic grounds, working diligently under the direction of Mr. Rice, physical director.

LATE PROFESSOR BURIED.

Activities at Stanford Suspended During Funeral Services of John Ernst Matzke.

STANFORD UNIVERSITY, Sept. 30.—Funeral services for Professor John Ernst Matzke, late of the department of romanic languages, who died suddenly in Mexico last week, were held in Palo Alto this morning. University activities were suspended after 10 o'clock this morning and the funeral services were attended by a large number of students and members of the faculty.

Prof. Matzke went to the City of Mexico as the representative of Stanford at a convention and while there was stricken by heart failure.

The Schubert Club is to present "The Mikado" in the assembly hall, Oct. 15. Miss A. Hanna, '11 of Redlands, is to appear in the leading role.

Arrangements were made this week for the formation of a triangular debating league to include Stanford, the University of Oregon and the University of Washington.

Facts, Features and Fancies for Women

BY OLIVE GRAY.

In the face of events which snatch us away from all our moorings, we can only clutch at the old and the familiar.

The above heading under which for several months, it has been my pleasure to address my readers, today takes on a strange meaning.

The gay conceit, devised to present life's lighter and happier side—the form of it lies in the ashes and wreckage of that great building from which for many years The Times has gone forth each day with its message to the world.

Had the awful catastrophe which took away so many lives occurred an hour earlier, little would have been left of that busy, thinking life which centered there.

As it is, those who first put into form the words which go out to you the readers—have gathered themselves together a sad but determined band, trying to pick up the threads of the old work.

As comrades grasped each other by the hand, and looked into each other's eyes, in the temporary office, hurriedly set in order, each was thinking, I am sure, how different it might have been; yet no one forgot those others who bore the brunt of it all and who will be seen no more.

Each hour brought to headquarters some mourning one with sorrow-stricken and questioning eyes. She who had heard nothing of her beloved was even more comfortless than they who knew the worst. Even true sisterly sympathy is without speech in the face of things like this. All our frivolities, the pastime of happier hours, drop from us like loose garments, and the heart that aches for sorrow and suffering, wherever found, is all that remains.

For woman is embodied sympathy and in whatever class she may move, she is alert to the misery of the world.

I am certain that my readers will join in sending to those who are the vicarious victims of this disaster, loving and helpful thoughts in their affliction.

My poor song is dumb, today, and only fact—the saddest of fact is before me; that fact which has engulfed the happiness of so many souls.

Elastic hosiery and abdominal supporters knit to order. Fresh stock, first class work, perfect fit guaranteed. We have just received new machinery and additional help from the East and can now fill orders promptly. We also carry a large line of trusses and have had several years expert-ence in fitting and adjusting them. Many of our customers are sent us by physicians. Ask your family physician about us. Our prices are always reasonable. Lady attendant. We also carry a line of crutches, batteries and invalid chairs, and invalid and hospital supplies generally.

POPPY HANDKERCHIEFS, ALL LINEN PUT UP 3 IN A BOX, FOR 25

One of the Season's Most Notable Announcements---
In the Combined Purchases of New Fall Tailored Suits and Dresses at $16.50

We Illustrate 5 Styles

It never occurred that we are able to offer this sale of tailored dresses right at the threshold of Fall season and at such a wonderfully popular price in value never approached enough to cover that description.
Thirty-five garments altogether, about 200 suits and the balance of the dresses.
It's the grouping of several purchases, for one important sale of quality. You will not be able to group the full significance of this sale until you have seen the garments.
Suits and dresses in the new shades of plain brown and green, navy and black and tailored with the new skirts in the usual variety of styles.
Dresses are the most serviceable design that can be found in the season's modes, and the suits particularly desirable for early Fall wear.
Materials are broadcloths, serges, Panama cloths, cheviots and tweeds in the new shades of plain brown and green, navy and black and tailored with the new skirts in the usual variety of styles.
Sizes 14 to 20 and 34 to 44 inclusive.
Note this: Such the sale means, bargain opportunity for small women that will go regardless there, and even stouter women up to 20 and 44 bust measure.

Cloth Coats At $15 and $19.50
Perfection in coat tailoring is reached in these garments. You cannot appreciate their beauty and originality with the low prices.
At $15 handsome full length models in medium weight broadcloths, black or blue, half lined with tailing satin. Sizes 32 to 44.
At $19.50 Coats of chiffon cloth, finest broadcloth, eight flaring models. Lined throughout with best yarn dyed satin, sleeves complete with the usual 116 garments.

$12.50 to $18.50 Cloth Skirts $9.95
Strictly man tailored skirts of fine French vellas, broadcloths and panama in blacks, blues and browns. Remember they are $12.50, $15 and $18.50 at $9.95.

$3.95 to $7.50 Silk Waists $2.95
For a wonderful sale Monday, 976 waists are to be sacrificed at $2.95.
Taffeta silk waists, messaline silk, foulards, Persian and mottled, including black, navy, cream, brown, wine, rose, Copenhagen and the other good new shades.
Plain tailored business and suit waists as well as dressy afternoon models and waists for evening affairs.
We predict a great crowd for these for $2.95, $5, $6.50 and $7.50 waists are going at $2.95.

Furs---Furs---Says Fashion, and the Broadway Re-Echoes Furs
A great and complete assortment of popular priced furs priced by the piece or set from $6c up to $19.50. See them.

Yes, We Charge For Making Man-Tailored Skirts to Order
But in doing so we eliminate the trickery. Our price is $3 or $3.50 for the making. But you buy only the material you need, not 5 yards when 3 or 3½ is necessary.
That's why we are making so many skirts. You choose your own material at from 50c to $3 a yard and we'll make a skirt to your measure in any quantities a perfect fit.
If you take $1 material for a 22-inch widths takes 2 yards. One style $3 for the making, the other $2.50, so you see the finished skirt won't cost you more than it would if you were to accept the free propositions that are put to you, for they ask for 6 or 8½ yards of material. For full details in aisle 4.
So yard for sponging.
By the way we have a celebrated line of $1 Dress Goods.

Which Shall It Be?
Paris, New York or Los Angeles Millinery
First decide this question for yourself then come to the Broadway for your new hat. Whether it be the beautiful Paris pattern hat, the correct New York model or the clever designs from our own workroom, you will find this showing unexcelled.

From Paris
Millinery personally selected by our own representative. Models from Reboux, Paquine and other designers of note are represented in this showing of imported pattern hats at $25, $40, $50, $65 and $75.

From New York
Beautiful dress, semi-dress and high grade street hats. Millinery from the very best and well known makers. Prices start at $10, $12, $15, $20, $25 and $30. Hats that rival the best that Paris can produce. See them Monday.

From Los Angeles
Exclusive designs from our own workrooms. Styles that have a distinctive air about them. Finished to meet the requirements of the Los Angeles public. Moderate prices from the basis of all Broadway Millinery. Prices start at $4.45, $5, $8, $10 and up to $75.

First Floor Dress Hats
Hats Pictured Are Priced $10
Including velvet shapes, both small and large with wings, quills, and fancy feather trimmings. A variety of colors and black. These at $4.45.
The wanted turban as well as the large dress shapes included in the $10 line. We picture two of the late models. Dozens of other ideas represented in this line.

A New & Better Line of Hosiery
Imperial Makes Its Bow Monday
Imperial is the name of the hosiery that will hereafter mean much to the women and men of Los Angeles. A brand that we have secured covering some of the very best domestic and imported hosiery.
Representing 25c, 35c, 3 for $1 and 50c grades. You will find Imperial hosiery at the Broadway only. We can thoroughly recommend it. We predict that within a short period it will become known from one end of the city to the other.

Imperial Hose 25c
At this price Imperial hose includes plain black cotton, medium weight of fine yarn. Fashioned and made with high strong spliced. Also fine cotton split foot, black cotton with ribbed top and fine silk lisle, very unusual at this price. Then ribbed stockings for women. They are made like a silk stocking, only women's sizes and dimensions. Also the old-fashioned ballbriggan stocking for elderly women as well as black cotton split foot in out sizes.

Men's Imperial Socks 25c
These are mercerized lisle, light weight, seamless finish with heavy spliced heel and toe. Men will be enthusiastic over this line. Also silk lisle, full fashioned, with spliced heel and toe. Black or tans. Look like silk. Men's Annex.

Imperial Hose 35c
The silk lisle or split foot cotton. Two of the most popular 35c lines or 3 for $1. Also out sizes in gauze lisles, fine black cotton with split foot, or all black foot with the ribbed top. Also plain ballbriggan.

Imperial Hose 50c
Silk lisles, plain black, with a grip top or black silk lisles with a novelty welt top. Neat and tee in white or yellow. Very new and pretty. We're proud of this line at 50c.

Imperial Socks 50c
These are pure silk, black and tan, as well as wine, gray, navy and lavender. Full fashioned socks that are filled to the brim with value at this price. See them in the Men's Annex, 50c.

Important Sale of Hair Goods
Ever since we have installed this popular priced hair goods department have we had more important news to tell you. Because we were fortunate in securing a large quantity of this merchandise much below regular prices we offer these startling values.

20-In. Switches Human Hair 95c
Genuine German human hair. A quality that usually retails at $1.50. A good assortment of shades. While they last, 95c.

Clusters $1.35
Real human hair, all shades, excepting grey. This quality usually priced at $1.50. Sale price $1.35.

50c Hair Roll 39c
Famous Franklin hair roll. Strictly sanitary, washable; put up in parchment envelope. 50c kind at 39c. Aisle 6.

October Display and Sale of Outing Flannel and Flannelettes
Perhaps right now your thoughts are turning towards flannelette gowns, dressing sacques and the many other uses that flannelettes are put to. Therefore, we plan this special showing, interspersed with bargain prices for an impor tant sale.

8½c Outing Flannel 8:30 to 9:30, Yd. 5c
Just for one hour this fine quality outing flannel, pink and blue stripe. Limit of 12 yards. No phone or mail orders. No deliveries except with other goods. Yard 5c.

Our Standard Outing 10c
Positively the best outing that can be bought for the money. Great variety of styles from which to choose. We make a leader of this. We doubt if you can match it under 12½c.

Tousledown 12½c
This is the Amoskeag tousle-down outing. Splendid assortment of styles from which to choose.

Domet Flannel 8c
Unbleached domet flannel, fleeced both sides. Third floor, yard 8c.

Domet Flannel 7½c
Bleached snow white domet flannel. Fleeced both sides.

Domet Flannel 10c
Unbleached, good, firm quality. Third floor, yard 10c.

Domet Flannel 12½c
Heavy fleeced bleached domet, excellent for 12½c.

30-in. Domet 12½c
Unbleached, good, firm, heavy weave, fleeced both sides.

Bleached Domet 10c
Heavy fleeced, snow white domet. One of the best values we've shown, yard 10c.

36-in Domet 8½c
A white domet flannel, a leader at this sale, yard wide, full bleached, yard 8½c.

Baby Flannel 12½c
Twill cotton flannel in white, pink, light blue and tan. Good fleece. Third floor, yard 12½c.

36-in Domet 10c
White rose domet flannel, one of the heaviest and best. Heavy nap. Fleeced both sides.

MADRAS DRAPERIES—As low as 25c yard and up to $1.50. This means a saving to you of from 5c to 25c yard; and of the popularity for (madras) this is the imported goods.

VETERANS ON RAGGED EDGE

New Rugby Men at Stanford Are Hustlers.

Norton and Fitting Are on Second Team.

Frank Is Putting Up Strong Game in Push.

—STANFORD UNIVERSITY, Sept. 30.—Competition for places on the Cardinal varsity football team is so keen that it is possible that several veterans may be crowded out of their places by new recruits. Harry Norton, who is a four-star man in track and is one of the greatest athletes that ever wore the Cardinal, is not yet showing enough speed to be used in the varsity squad. He has been handicapped with a weak ankle.

John Fitting, '12, of San Bernardino, who played in the front rank on the varsity last year, also is not being used on the varsity. In practice last night Norton and Fitting played on the second team. It is probable that they will win places on the first team before the big game but they will have to "go some" in order to land the berths.

Al Frank, '12, of Los Angeles, who played forward on the freshman fifteen last year, is being used on the varsity. He is one of the most aggressive men in the squad and by far the most heady playing has compelled recognition. He only weighs 150 pounds and looks like a pigmy alongside the huskies in the pack, but he is as hard as nails and follows the ball like a terrier after a rat. He appears not to be handicapped by his size in bucking up against the big men and if he maintains his present gait it is likely that nobody will be able to dislodge him. He is the smallest man that has ever played in the varsity pack.

Arrell, '12, of Illinois, who played in the backfield of the freshman team last year, also is being used among the forwards. With Frank, he has been playing in the front rank. He also is comparatively light, weighing about 175 pounds, but he has been holding his place. Bily, '12, of Los Angeles is fighting for a front rank berth.

Schaupp, '12, and Partridge '12, the other new stars in the pack, are huskies. Partridge is the tallest man in the squad, standing 6 ft. 3 in. He weighs nearly 200 pounds. Schaupp weighs about 190 pounds and is one of the strongest men on the campus. He is several years older than the average collegian and has a great amount of experience. Neither Partridge nor Schaupp have had much experience at the game, but they are rapidly developing into prediction players. Woodcock, '12, of Selma, is playing forward almost continually, but there are several good men after the place, among whom is "Dug" Fyfe, '13, of Los Angeles, forward on last year's freshman team.

Thoburn, '12, who played in the backfield of the freshman team last fall, is being given a thorough try-out at first five eighths on the varsity. He is an exceptionally speedy and heady runner but has a tendency to keep his eye on his opponents instead of on the ball with the result that he is guilty of much fumbling. If he can overcome that habit he has a good chance to land a berth on the first team. Stan Mitchell, '13, is playing consistently well and has not been put to it to perform brilliant stunts at the right time.

The Varsity has six games on its schedule before the intercollegiate match. One of the games is with the U. S. C. Law School on Stanford Field, the latter part of October. The second team, however, may be played against the barristers. The only trip left the campus will be made in three weeks when the team will journey to Reno to meet the fifteen of the University of Nevada.

The freshman team is rapidly getting into good shape. With the exception of two or three positions, the best men for the different berths have been discovered. Ted Gelaher and Phil Harrigan of Los Angeles are the strongest men in the backfield. Reeves of San Bernardino and Kaufman of Pomona, who are playing five-eighths and fullback, respectively, are good players. Tilden of Bakersfield seems to have the halfback position clinched.

FRESHMEN ARE FAST.

The freshmen have but three games to play before they meet the California "babies" on Stanford Field, October 15. The team has not yet displayed strength equal to that of last year's fifteen, which was by far the best freshman aggregation developed here since Rugby was adopted. But the students believe that the 1914 fifteen will be able to follow in the footsteps of the 1913 team and defeat California this year. The "babies" were defeated by the sophomores, 10 to 0, in the midwinter struggle early in the week. The freshmen played better rugby than did their opponents, but the "sophs" were too strong and aggressive to be downed.

The seniors and sophomores go to meet Monday in a game to decide the interclass championship. Varsity men have been barred from the class struggles, but considerable interest has been developed in the contest. The freshmen-sophomore match was the most exciting contest that has been played here this season.

Manager Mortimer has forwarded to Coach Cozens of the Stanford men who will be eligible for the freshman game. Fourteen men are eligible. Their names follow:

[illegible]

SKY HIGH.

STANFORD BALL PLAYERS IN AIR.

COACH AND CAPTAIN-ELECT ARE AMONG MISSING.

Diamond Squad Is Left Without Head Because "Mickey" Reed Fails To Return To College and Coach Thaile Is Bothered Fdr Engaging In Professional Sport.

STANFORD UNIVERSITY, Sept. 30.—Baseball at Stanford is temporarily up in the air because neither the captain-elect nor the coach of this year's team are available.

"Mickey" Reed, '10, who was elected captain at the close of last season did not return to the university this year. W. C. Thiele, '08, who was chosen by the student body as successor to Coach Presley to handle the team, engaged in professional ball at San Jose last summer and the faculty athletic committee has decreed that he is a professional and cannot act as coach.

Coach Presley intends to give up his position at the close of the present football season. When he announced his intention last spring the executive committee chose Thaile to coach the next baseball nine and postponed the choosing of another football coach.

However, Coach Presley has called a meeting of all baseball men for Monday afternoon and arrangements will be made for the next ball practice. Until Coach

REAL STRIFE.

VETERANS ON RAGGED EDGE.

New Rugby Men at Stanford Are Hustlers.

Horton and Fitting Are on Second Team.

Frank Is Putting Up Strong Game in Pinch.

STANFORD UNIVERSITY, Sept. 30.—Competition for places on the Cardinal varsity football team is so keen that it is possible that several veterans may be crowded out of their places by new recruits. Harry Horton, who is a four-star man in track and is one of the greatest athletes that ever wore the Cardinal, is not yet showing enough speed to be used in the varsity squad. He has been handicapped with a weak ankle.

John Fitting, '10, of San Bernardino, who played in the front rank on the varsity last year, also is not being used on the varsity. In practice last night Horton and Fitting played on the second team. It is probable that they will win places on the first team before the big game but they will have to "go some" in order to land the berths.

Al Frank, '12, of Los Angeles, who played forward on the freshman fifteen last year, is being used on the varsity. He is one of the most aggressive men in the squad and by fearless, heady playing has compelled recognition. He only weighs 150 pounds and looks like a pigmy alongside the husklies in the pack, but he is as hard as nails and follows the ball like a terrier after a rat. He appears not to be handicapped by his size in bucking up against the big men and if he maintains his present gait it is likely that nobody will be able to dislodge him. He is the smallest man that has ever played in the varsity pack.

Arndt, '13, of Illinois, who played in the backfield of the freshman team last year, also is being used among the forwards. With Frank, he has been playing in the front rank. He also is comparatively light, weighing about 175 pounds, but he has been holding his place. Bly, '12, of Los Angeles is fighting for a front rank berth.

Schaupp, '13, and Partridge '12, the other new men in the pack, are huskies. Partridge is the tallest man in the squad, standing 6 ft. 3 in. He weighs nearly 200 pounds. Schaupp weighs about 190 pounds and is one of the strongest men on the campus. He is several years older than the average collegian and has a great amount of stamina. Neither Partridge nor Schaupp have had much experience at the game, but they are rapidly developing into prodicient players.

Woodcock, '11, is being used at wing forward almost continually, but there are several good men after the place, among whom is "Dug" Fyfe, '13, of Los Angeles, forward on last year's freshman team.

Thoburn, '12, who played in the backfield of the freshman team last fall, is being given a thorough try-out at first five eighths on the varsity. He is an exceptionally speedy and handy runner but has a tendency to keep his eye on his opponents instead of on the ball with the result that he is guilty of much fumbling. If he can overcome that fault he has a good chance to land a berth on the first team. Stan Mitchell, '12, is playing consistently well and has not lost his ability to perform brilliant stunts on the right time.

The Varsity has six games on its schedule before the intercollegiate match. One of the games is with the U. S. C. Law School at Stanford Field, the latter part of October. The second team, however, may be played against the barristers. The only trip for the season will be made in three weeks when the team will journey to Reno to meet the team of the University of Nevada.

The freshman team is rapidly getting into good shape. With the exception of two or three positions, the best men for the different berths have been discovered. Ted Gelmar and Phil Harrigan of Los Angeles are the strongest men in the backfield. Reeves of San Bernardino and Kauffman of Pomona, who are playing five-eighths and fullback, respectively, are good players. Tilden of Bakersfield seems to have the halfback position cinched.

FRESHMEN ARE FAST.

The freshmen have but three games to play before they meet the California "babies" at Stanford Field, October 15. The team has not yet displayed strength equal to that of last year's fifteen, which was by far the best freshman aggregation developed here since Rugby was adopted. But the students believe that the 1914 fifteen will be able to follow in the footsteps of the 1913 team and defeat California this year. The "babies" were defeated by the sophomores, 10 to 0, in the undergrads struggle early this week. The freshmen played better rugby than did their opponents, but the "sophs" were too strong and aggressive to be downed.

The seniors and sophomores are to meet Monday in a game to decide the interclass championship. Varsity men have been barred from the class struggles, but nevertheless the games have been interesting. The freshman-sophomore match was the most exciting contest that has been played here this season.

Harvey Burbank has forwarded to Coach Presley a list of the Stanford men who will be eligible for the freshman game. Forty-six men are eligible. Their names follow:

C. E. Adams, W. J. Bergen, W. Beatty, R. L. Berry, C. Bodtcher, W. Brawley, J. C. Byron, W. T. Burns, E. Clark, R. Cleary, W. Dante, C. Fowler, [illegible] F. Card, E. F. Gelmar, [illegible] W. M. Glass, E. M. Good, R. H. Hall, T. F. Harrigan, A. L. Henry, Woodcock, H. is being used at wing forward almost continually, but there are several good men after the place, among whom is "Dug" Fyfe, '13, of Los Angeles, forward on last year's freshman team.

Thoburn, '12, who played in the backfield of the freshman team last fall, is being given a thorough try-out at first five eighths on the varsity. He is an exceptionally speedy and handy runner but has a tendency to keep his eye on his opponents instead of on the ball with the result that he is guilty of much fumbling. If he can overcome that fault he has a good chance to land a berth on the first team. Stan Mitchell, '12, is playing consistently well and has not lost his ability to perform brilliant stunts on the right time.

Glass, E. M. Good, R. H. Hall, T. F. Harrigan, A. L. Henry, C. W. Haight, H. Horton, [illegible] C. W. Murray, C. E. Olmsted, [illegible] C. Parker, C. S. Powell, F. Pratt, W. C. Smith, S. J. Redford, M. Reeves, L. J. Plum, R. Thoburn, F. D. Watkins, J. R. Weber, R. M. Wyman.

The freshmen are planning to erect a pile record for the bonfire or the rally before the freshman-sophomore game that will surpass anything seen in this line. Last year the freshmen erected a mass of wood that was forty feet high. They collected nearly all the dilapidated fences and shaky fixtures in the vicinity and tore down two or three sections of the fence at the old track.

Following is the eligibility list submitted by California. On blue-and-gold fifteen will be picked from fifty-seven "babies" from across the bay.

SKY HIGH.

STANFORD BALL PLAYERS IN AIR.

COACH AND CAPTAIN-ELECT ARE AMONG MISSING.

Diamond Squad Is Left Without Head Because "Mickey" Reed Fails To Return To College and Coach Thiele Is Bothered For Engaging In Professional Sport.

STANFORD UNIVERSITY, Sept. 30.—Baseball at Stanford is temporarily up in the air because neither the captain-elect nor the coach of this year's team are available.

"Mickey" Reed, '10, who was elected captain at the close of last season did not return to the university this year. V. C. Thiele, '08, who was chosen by the student body as successor to Coach Presley to handle the team, engaged in professional ball at San Jose last summer and the faculty athletic committee has decreed that he is a professional and cannot act as coach.

Coach Presley intends to give up his position at the close of the present football season. When he announced his intention last spring the executive committee chose Theile to coach the next baseball nine and postponed the choosing of another football coach.

However, Coach Presley has called a meeting of all baseball men for Monday evening and arrangements will be made for the baseball practice. Until Coach Presley stepped into the breach the baseball men were worried as none of the members of last year's team had any authority to issue a call for practice.

Reed is the second consecutive baseball captain-elect to fail to return to the university. Calwalader, '09, of Los Angeles was elected captain of the 1910 team at the close of the 1909 season but he failed to matriculate at the opening of the next school year.

Although the team is now without an official head, nevertheless several of last year's varsity players are on the campus and the outlook for another winning team is promising. Gilfillan, '12, of Los Angeles, the varsity pitcher, is among the available men.

New Altitude Mark.

MOUNTAINLON, Oct. 1.—Wyumalen, the aviator, established a new world's record for altitude today, rising to a height of 9121 feet. The previous best mark of 8409 was made by the late George Chavez.

Puritas Distilled Water for Healthful Drinking

Contains None of the Mineral Impurities Found in Natural Waters

Many people complain of the "brackish" taste common to most waters in Southern California. Even our city water is not free from it.

This taste is due to the considerable quantities of mineral matter in the water. These minerals are held in solution—thoroughly dissolved. The water cannot be freed from them by any filter or other mechanical device.

This mineralized water is not only unpleasant to the taste, but it has a distinctly harmful effect on many persons. To its action may be attributed many kidney and stomachic troubles, as the mineral matter cleaned by assimilated by the body, but becomes deposited in the articles.

You should drink pure, "soft" water, and in this vicinity the only reliable supply is Puritas Distilled Water.

Puritas is absolutely pure. We distill it twice, double distillation being essential to insure its purity.

Puritas is full of zest and sparkle. This is due to the fact that it is bottled with pure ozone. The ozone is secured by a unique process—filtered air is pulled through an electric current, and the resulting ozone is forced into the pure, distilled water awaiting it.

We bottle Puritas in clean glass demijohns. Every care is observed in the work, and we even wrap the necks in foil, in order that the air, filtering through a porous cork, may not contaminate the pure water within.

Puritas is very inexpensive. Five gallons cost but 60c, delivered within the old city boundary lines. At points further removed the cost is a trifle more owing to the long haul. Regular Puritas customers purchase Coupon Books, thus securing the pure water at a discount. When you telephone us, ask us about them. Home 10808; Sunset, Main 8184.

Puritas is absolutely pure. Doctors in most every community prescribe Puritas. Phone us. If you have children, you will want Puritas. We will be glad to tell you more about it.

What the California Offers to Home Furnishers

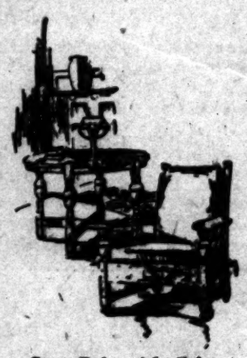
¶ Entirely regardless of whether your home is modest or elegant—the "California" offers you the most economical, the most desirable, and the most efficient home furnishing service it is possible to obtain in Los Angeles. Men who have spent from 15 to 25 years in the active study of the home furnishing needs of Southern California, render you their conscientious assistance and advice in selection and enable you to secure best possible results at lowest possible cost to you.

¶ It matters not whether you desire to buy merely an inexpensive chair or to furnish your home complete—it will pay you, from the standpoint of dollars and cents and from the standpoint of harmonious results, to first visit the "California."

¶ The seven vast floors of our splendid new home are beautifully arranged with the newest and most distinctive home furnishing requirements we have been able to gather in America.

¶ Everything here is shown under the most desirable homelike conditions, with abundance of light and liberal room—and all goods are priced in plain figures, inviting the most rigid comparisons.

¶ These facts, as we have stated them, stand ready for your verification. And whether you wish to buy furnishings now or not—we shall welcome the opportunity to show you through our splendid new store. We know we shall be amply repaid by the impression you will carry away in your mind.



Some Tudor style living room pieces in the fumed oak finish.

PAMPAS WAVE AS THEY PASS.

TEACHERS' WIVES ARE ENTERTAINED AT FRESNO.

Citizens Give Them Delightful Ride Through City and Out to Where The Raisin Crop Is Drying—Methodist Conference Hears Report of Field Agent and Treasurer.

FRESNO, Sept. 30.—Down ten miles of boulevard shaded by palm trees and low-spreading eucalyptus—different from the blue gum of the southern end of the State—and lined the entire length with feathery pampas and red and white oleanders in blossom, the members of the Ministers' Wives' Association were taken this morning in automobiles furnished by the citizens of Fresno. While the preachers attended to the day's proceedings in the business session of the Southern California Methodist Episcopal Conference, the preachers' wives enjoyed an outing that took them down beautiful Kearny avenue to Kearny Park, and home by way of the acres of land where the raisin crop is drying.

There will be a special session of the conference tomorrow afternoon and afterwards the men will take the same trip by automobile.

One of the matters full of interest to the conference at this morning's business session was the report of J. B. Green, field agent and treasurer of the conference funds.

For seventeen years the preachers of Southern California have been assessing themselves in order to furnish a fund which should provide old-age pensions based on the number of years each has paid in.

Twelve years ago A. M. Hough, a brother-in-law of Mrs. Russell Sage, himself a superannuated member of the conference, started an endowment for this same purpose. Beginning with property valued at about $50,000, the treasurer reported this morning that it had grown to $173,000, a large part of it being productive.

The amount available for distribution from the vested funds is $8500, which, added to the amount contributed by the churches for that purpose, will make provision for the worn-out preachers and their widows which is excelled by few conferences in the world.

HOSPITAL IN LOS ANGELES.

Methodism evidently is in earnest about having an adequate hospital in Los Angeles. The hospital on South Hope street is under the control of the Woman's Home Missionary Society. It is well known that a movement has been on foot for some time to have a hospital in connection with the Medical College of the University of Southern California, and some funds have already been promised for that purpose.

A resolution was offered this morning by J. A. Geissinger of the University Church recommending the merging of the two schemes and no doubt this will soon be accomplished. The College of Medicine already has about 100 students and it is the tentative plan that the faculty shall conduct a free clinic in connection with the hospital work.

The university is a conference school, that is, it is owned and conducted by the Southern California conference. Already about twenty-five conference members are alumni of that institution and tonight at the educational anniversary they had their innings.

The choir loft was filled with the alumni, bedecked with the college colors. Streamers of cardinal and gold floated over their heads and with college songs and yells and a male quartette they woke up the echoes for U. S. C.

It is not at all surprising that the college men are much in evidence, since the presiding bishop was himself taken from a college presidency.

The alumni of Boston Theological Seminary are planning for a banquet, as are also those of Drew, there being a considerable number of both alumni in the conference.

The Woman's Foreign Missionary Society had its anniversary this afternoon, and Dr. Matt S. Hughes of Pasadena gave the address. Dr. Hughes declared that he wished to identify the missionary spirit with Christianity, declaring that there was no authority for saying "This man has the missionary spirit," and "That man is a Christian," as though the missionary spirit was something that had been superadded to Christianity.

W. E. Tilroe was in charge at the evangelistic meeting this afternoon.

SAN DIEGO SUPERINTENDENT.

What will be done in the matter of a district superintendent for the San Diego district is still a matter of conjecture and the list of men suggested for the appointment is growing rapidly. Besides E. J. Inwood, Alfred Inwood and G. W. Coultas, who were among the first to be mentioned, the names of Clyde Crist of Vincent Church, Los Angeles, H. E. Murkett of Santa Ana, John Oliver of South Pasadena, W. K. Beans of Corona and Eli McClish of San Bernardino are all being heard from different quarters.

It is not expected there will be as large a number of changes this year as compared with last.

The bishop is having numerous interviews with the lay members from different churches, as they are in attendance today on the Lay Association. By reason of the fact that the conference is held near its northern boundary, necessitating at least twenty-four hours' travel for some members if they desire to be present, a smaller number than usual attended.

The laymen are not at all afraid to make business-like suggestions concerning the work of Methodism, and one radical departure was suggested today by A. Z. Taft of Hollywood, who read a paper advocating the sending of as many laymen officially to the conference as there are ministers. This would require that each charge would have equal lay representation in the annual conference and also put an equal number of laymen in the cabinet to decide where the preachers should be sent. This is the custom in the Methodist church of Canada and is finding some favor among the men on this side of the border.

CASE STILL PENDING.

A report that a disagreement between the Southern Pacific and claimants over the title to desert land along the Santa Fe between Barstow and Needles had been decided in favor of the railroad, has disturbed the mining interests. The mining men yesterday appealed to C. R. W. Robinson, receiver of the Land Office, for information. He is assuring them that the official contest has not been held and that they will be given due opportunity to make their protest.

POPULATION RETURNS.

WASHINGTON, Oct. 1.—Census returns show the population of the territory of New Mexico to be 327,396.

SUSPENDED SENTENCE.

Tom Carson, who was arrested for having beaten up Tom Keefe on account of trouble regarding a joy ride, was released under a suspended sentence of [illegible] by Justice Baird yesterday.

EVENTS IN LOCAL SOCIETY.

Lavender water lilies and golden glow in artistic profusion ornamented the beautiful W. J. Hole residence on West Sixth street yesterday afternoon in honor of the large card party given by Mrs. Hole and her daughter, Miss Agnes. This was the first large function presided over by Miss Hole since her debut last season. During the next few months the home will be the scene of a number of delightful parties. In receiving the hostesses were assisted by Mrs. Fred S. Lang, Mrs. E. C. Dieter, Mrs. Lewis Clark Carlisle and Mrs. George Bayly.

Have Returned.

Mr. and Mrs. Edwin S. Rowley of Menlo avenue who have been visiting in the East and Alaska have returned home. They are entertaining for the winter Mr. Rowley's mother, Mrs. Rowley of Palo Alto.

Visiting Relatives.

Mrs. W. Colby of San Diego is visiting at the home of her son-in-law and daughter, Mr. and Mrs. Alfred Menard of Moneta avenue.

Into New Home.

Into New Home.

Fred Baker and family have moved from the Westlake apartments into their new bungalow at No. 154 Pacific avenue, Hollywood.

Engagement Announcement.

Mr. and Mrs. John Wesley Williams of Kenneth, Kan., announce the betrothal of their daughter, Miss Dixie to J. Arthur Farnsworth, Jr. The wedding will be solemnized October 19 at the home of the bride-to-be. At the conclusion of a honeymoon trip Mr. and Mrs. Farnsworth will be at home to friends at the Richards apartments.

Delightful Luncheon.

Mrs. Harriet J. Phillips entertained last week with a luncheon at the California Club. Guests included Mrs. Caroline Gage, Mrs. James Bastable, Mrs. Charles Edson, Mrs. L. F. Edson and Mrs. Mary B. Ingraham. Later a visit to the San Gabriel Mission and Country Club were enjoyed.

Mrs. Gillette Hostess.

Mrs. Grant G. Gillette of No. 43 Westmoreland Place was hostess Friday at a large tea party, with which she entertained with honor of wives of members of the American Mining Congress. The home was beautiful with yellow chrysanthemums, winsteria and red carnations. Mrs. Beatrice H. Plummer presented an enjoyable musical programme. Tea was served in the Japanese tea room by Mrs. J. T. Fitzgerald and Mrs. Walter Perry Story, and Mrs. W. P. Dunham poured coffee in the dining-room. The Misses Helen Thresher, Florence Thresher and Lulu Page served punch, from a cosy nook on the roof garden. Several hundred guests called during the afternoon.

At Home.

Mr. and Mrs. Lee Phillips of Berkeley Square have returned from a six weeks' motoring trip along the Coast.

To Receive.

Mrs. Samuel Calvert Foy and her daughter, Mrs. Remington Olmstead, of San Rafael ranch, will be at home to friends Thursdays in October and November.

Harringtons Home.

Mr. and Mrs. Harry Harrington are again in Los Angeles after a tour of the world.

To Return.

Mr. and Mrs. M. V. Huff of Oxford avenue, who have been guests of their son-in-law and daughter, Mr. and Mrs. Alexander Campbell of Mound Valley, Kans., will visit relatives in Kansas City before returning.

Mrs. Chichester Home.

Mrs. W. J. Chichester of Menlo avenue who has been East, has returned.

At Balboa Apartments.

Mrs. A. C. Taylor has returned from a month's sojourn in San Francisco and is domiciled at the Balboa.

At Balboa.

Mr. and Mrs. W. G. Hemenway are at home to friends at the Balboa, on West Seventh street.

Long in China.

William Martin, for many years in the consul service in China, has been passing a few days at the Mt. Washington hotel.

AMERICAN BUSINESS.

By Walter J. Ballard.

In spite of the unnecessary and unprecedented political agitation and the equally unnecessary labor troubles and strikes, American business is prospering. The fiscal year's report of the Reading Company, the Philadelphia and Reading Company, and the Philadelphia Coal and Iron Company shows a total surplus of $10,774,989, against $9,041,915 for the preceding fiscal year. In consequence the wages of the employees have been increased by $132,000 a month for the present fiscal year. Pensions paid amounted to $74,714, an increase of nearly $10,000.

A cable from Seward, Alaska, says the McKest vein of gold quartz ever seen in Alaska has been struck near Seward. It is said to be thick with free gold. Next year's gold yield of the new Iditarod region will be worth $5,000,000, as the claims have only been scratched this season.

For the year ended July 31, 1910, the Westinghouse Air Brake Company earned $8.16 per cent. on its $14,000,000 stock, against 13.73 per cent. in 1909. The surplus of nearly $7,000,000 evidences 1909-10 as the most prosperous year the company has ever had.

All our railroads will be helped by the decision September 21 in the Minnesota rate cases, which has the effect of establishing Federal rate supervision as against State rate supervision. As the New York Sun says: "If this principle is upheld by the United States Supreme Court it will relieve the railroads of the most vexatious part of their dealings with public bodies. Latterly they have been obliged to deal on rate questions not only with the Interstate Commerce Commission, but with commissions in many States that have assumed or sought the same powers as those conferred by Congress on the Interstate Commerce Commission." Judge Otis of St. Paul also held that investors in the stocks and bonds of the roads affected—the Great Northern and the Northern Pacific—were entitled to a 7 per cent. return on the physical valuation of the properties, which in each case, was established as greater than the outstanding stocks and bonds.

The Iron Age says: "The volume of new wire business is exceptional and wrought iron pipe and tubes stand second in amount of new business taken. For some time the United States Steel Corporation has been exporting 35,000 tons a month more steel products than it did last year. A considerable sale of rails has just been made to a Chilean road.

The Iron Trade Review says: "The country continues to do a business which an ordinary times a few years ago would have been considered tremendous, and the present large volume is carried on with a very small percentage from the railroads."

The Journal of Commerce of New York gives the October interest and dividend disbursements as $168,000,000, or $10,000,000 more than in October, 1909.

The "Soo" Railroad lines earned $24,335,404 gross and $10,294,134 net in the fiscal year ended June 30, 1910. Both gross and net are the largest for the last four years.

Had it not been for strike losses of $2,400,000 the Philadelphia Rapid Transit Company would have shown a surplus for the fiscal year, instead of a deficit of $1,114,000. The strikers' loss was far greater. Who benefited, except the salaried strike leaders and paid agitators?

Dutiable imports in 1910 fiscal year amounted to $786,000,000, against $56,000,000 in 1909. The ad valorem rate of duty was 41.49 per cent., against 43.15 per cent., a reduction of 1.66 per cent.

Business with the General Electric Company of Schenectady, N. Y., and elsewhere is so large that the erection of additional factories near Buffalo, N. Y., to cost about $2,000,000.

KNIFE THRUST FAILS.

Woman Alleged To Be Demented Attacks Appellate Jurist With Murderous Intent.

[ASSOCIATED PRESS DAY REPORT.]

CHICAGO, Oct. 1.—A woman thought to be demented attempted to assassinate Judge Frank Baker of the Appellate Court of Cook county, on the street here today. The jurist escaped unhurt. The woman, Mrs. Elizabeth Burke, aged 45, a seamstress, used a knife with a five inch blade.

Mrs. Burke was arrested.

On her way to the station she screamed and struggled. The police could not learn her motive for the attack. She rushed on Judge Baker as he stepped from his home to the street and sought to plunge a butcher knife into his heart. The jurist grasped her arm and struggled with her until Policeman Sullivan appeared.

Judge Baker received no injury but his assailant's hands were lacerated.

Frank Baker was elected to the bench of the Cook county circuit court twenty-three years ago and has served ever since. He was assigned to the Appellate Court six years ago.

NEW MANAGER'S

Inter-State

1911 - 40 H. P.

COMFORT, above all other features, is demanded and due the users of a motor car. Before absolute comfort and security there must be a perfect mechanism, long wheel base and good springs. Inter State combines all these, and the sense of security and comfort in driving one is not excelled in any car at any price.

ABILITY to climb any grade easily, to go through sand without laboring, to show extreme speed when desired, and to do it all quietly, easily and without fuss spells ability in a car. Inter State gives you this in every sense of the word. In driving one you always feel that you have power in reserve—and you have.

SERVICE—There is one owner of a 1909 Inter State that has been over the road between Los Angeles and Bakersfield nearly every week for over a year, besides using his car constantly at both ends of the line, and he has never had it in a shop for anything except occasional tire repairs. He states that he does not believe there is another make of car in Los Angeles that would have stood the work he has done with his Inter State.

THIS IS SERVICE, and the kind of service that figures in dollars and cents.

Torpedo, with special equipment, $2150.

OPEN SHOP GRADUA HEADWAY IN SA

Non-union and Union Men Wor Big Apartment-House Contracts gate Comes Along—Bakersfield Movement Spreading.

SAN FRANCISCO, Sept. 29.—The open shop is being established in San Francisco, little by little. While the union leaders are striving to win the closed shop in Los Angeles the closed shop in San Francisco is gradually becoming a thing of the past.

Instead of making a fight against the open shop here, the rank and file of the unionists, with the employers, welcome the coming of the open shop, for they believe that it means a new era of prosperity for the manufacturers and employers alike.

With the boilermakers working on an average of but two days a week, with thousands of building mechanics and laborers of all classes either working short shifts or not working at all as a result of the union-shop policy which has been maintained so long in this city, anything which promises relief to the wage-earners will receive their hearty cooperation and support.

This condition of affairs, perhaps, accounts for the apparent lethargy with which the radical trade-union leaders view the elimination of the closed shop and the establishment of the open shop. They are making absolutely no attempt to fight it, although they will not acknowledge that the open shop is being maintained in San Francisco.

The open shop is here, however, and evidently here to stay. For the benefit of those who doubt, here is the proof: There are at the present time in San Francisco four large apartment houses in course of erection—mechanics STAGGET in course of construction and the work is all being done on the open-shop policy. Not a single union business agent visits the place, and there has been no attempt to boycott the jobs on the part of the Building Trades Council, which has so often boasted that the building trades in San Francisco are thoroughly organized and it would be impossible to erect a building in this city except under conditions imposed by the Building Trades Council.

Waitresses, bartenders, cooks, cooks' helpers, members of the unions, are working with non-union help without a protest from any of the organizations of which they are members.

The upholsterers, who recently went on strike for an increase of wages, have been forced to choose between returning to work under existing conditions or be be denied recognition by the employers, which means the establishment of the open shop in this industry.

The same conditions that exist in San Francisco exist in even a still greater degree in Oakland, Stockton, San Mateo and San Jose, particularly among the building trades, where thousands off non-union building mechanics are working either with union men or else have complete control of the situation.

Even as far as Bakersfield the open shop has been inaugurated, under the building mechanics, who are sending out appeals to all unions, asking union building mechanics to stay away from Bakersfield because of the threatened success of the open shop in that city.

As far as the metal trades situation is concerned, no definite settlement has as yet been reached. The

OPEN SHOP GRADUALLY MAKES HEADWAY IN SAN FRANCISCO.

Non-union and Union Men Working Side by Side on Four Big Apartment-House Contracts and Nary a Walking Delegate Comes Along—Bakersfield Unionites on the Run—The Movement Spreading.

SAN FRANCISCO, Sept. 29.—The open shop is being established in San Francisco, little by little. While the union leaders are striving to win the closed shop in Los Angeles the closed shop in San Francisco is gradually becoming a thing of the past.

Instead of making a fight against the open shop here, the rank and file of the unionists, with the employers, welcome the coming of the open shop, for they believe that it means a new era of prosperity for the manufacturers and employes alike.

With the boilermakers working on an average of but two days a week, with thousands of building mechanics and laborers of all classes either working short shifts or not working at all as a result of the union-shop policy which has been maintained so long in this city, anything which promises relief to the wage-earners will receive their hearty cooperation and support.

This condition of affairs, perhaps, accounts for the apparent lethargy with which the radical trade-union leaders view the elimination of the closed shop and the establishment of the open shop. They are making absolutely no attempt to fight it, although they will not acknowledge that the open shop is being maintained in San Francisco.

The open shop is here, however, and evidently here to stay. For the benefit of those who doubt, here is the proof: There are at the present time in San Francisco four large apartment houses in course of erectionmechanicsETAOET in course of construction and the work is all being done on the open-shop policy. Not a single union business agent visits the place, and there has been no attempt to boycott the jobs on the part of the Building Trades Council, which has so often boasted that the building trades in San Francisco are thoroughly organized and it would be impossible to erect a building in this city except under conditions imposed by the Building Trades Council.

Waitresses, bartenders, cooks, cooks' helpers, members of the unions, are working with non-union help without a protest from any of the organizations of which they are members.

The upholsterers, who recently went on strike for an increase of wages, have been forced to choose between returning to work under existing conditions or be-ing denied recognition by the employers, which means the establishment of the open shop in this industry.

The same conditions that exist in San Francisco exist in even a still greater degree in Oakland, Stockton, San Mateo and San Jose, particularly among the building trades, where thousands off non-union building mechanics are working either with union men or else have complete control of the situation.

Even as far as Bakersfield the open shop has been inaugurated among the building mechanics, who are sending out appeals to all unions, asking union building mechanics to stay away from Bakersfield because of the threatened success of the open shop in that city.

As far as the metal trades situation is concerned, no definite settlement has as yet been reached. The employers fully intended to demand certain concessions on the part of iron workers at the beginning of the present month, and had decided that in the event of the union iron workers refusing their offer, to establish the open shop. The only reason that prevented the employers from carrying out this intention was because of the urgent necessity of maintaining industrial peace while the matter of San Francisco's securing the world's fair remains unsettled. The employers in the metal trades have not given in to the demands of the union men by a long way, and what is more, they never will. There must be a concession on the part of the iron-working unions unless they desire the inauguration of the open shop, and the writer is not yet convinced that the majority of the iron workers in this city would seriously oppose the open shop. Many of them are scarcely earning a living under present conditions, and they are beginning to realize that the unions are largely responsible for same.

One of the most important events in the labor world of this city during the week was the establishment of what is known as the San Francisco Industrial Conciliation Board, organized for the settlement of all industrial disputes, and composed of twelve representative employers and twelve union men. All industrial disputes will be referred to this body for settlement.

Of course, nobody is crazy enough to believe that the unions will abide by the decision of this board if the decision favors the employer, but it will help to open the eyes of many persons who have heretofore been known as union sympathizers, to the duplicity and the unreasonableness of the unions, and will materially aid the movement rapidly gaining headway in this city for the establishment of the open shop.

It will be interesting to note how the first decision of the San Francisco Industrial Conciliation Board is received by the unions, should that decision be unfavorable to the unions involved, no matter how just and fair the decision may be.

Here is a sample of the class of men that compose some of the unions in San Francisco: On Monday night of last week the Plasterers' Union held an election of officers. There was a fierce scramble for the paid positions and, as a result, a free-for-all fight. Chairs flew through the air. Heads were smashed. The air was blue with profanity and order only was restored after a special officer had summoned assistance in quelling the mob.

More than 300 musicians, who have been refused admittance to the Musicians' Union unless they come through with $100 apiece, have formed a dual organization and are being employed in preference to the regular members of the Musicians' Union.

Lozier 1911 Briarcliff

There is no ethical reason for including in our policy as great a degree of care for our customers as we use

Our reason is a commercial one: IT PAYS.

Let a man buy a legitimately high-priced Lozier, run it for a year or two, give it hard, every day service. Then let him total his expenses and find that he has spent next to nothing on his car except for fuel, lubrication and tires, and he becomes a living, breathing, talking advertisement for our car and for us.

Ask any man who bought a 1910 Lozier what the car has cost in repairs. His answer will prove, first, Lozier quality, and, second, the excellence of our selling plan.

INTEREST IN NEW CONTRACT

Agency-Associated Reach an Agreement.

Details, However, Have Not Been Given Out.

General News of Interest From Oil Fields.

While it is known that some kind of a deal has been made by officials of the Independent Oil Producers' Agency and those of the Associated Oil Company, the nature of the contract in its many ramifications is not available at this time.

H. F. St. Clair, president of the agency, who is in San Francisco in conference with the officials of the Associated, and who is clothed with extraordinary powers by the executive committee of the agency, refuses to make public the details of the contract. It is believed, however, that a statement will be forthcoming from an authoritative source before many days.

It goes without saying that the oil operators of the State, including the members of the agency, are very anxious to know what has been done. There is one report to the effect that the Agency-Associated contract while providing for the Associated to take over the Agency's surplus oil, does not stipulate at what figure this is to be done. It is further intimated that the agreement between the two big marketers will have the effect of restoring confidence in the oil industry of the State; that it involves indirectly a tremendous sum of money; and, lastly, that it means that the Agency has to some extent at least bowed the knee to the Associated.

A full statement of the conditions surrounding the new coalition is awaited by the California oil men with the greatest interest.

WILL BUY FROM STANDARD.

Articles of incorporation of the California Natural Gas Company have been filed at Martinez, Contra Costa county. The purpose is given as the piping and selling of natural gas and the manufacture of electricity. The incorporators are: D. Pillsbury, Alfred Sutro, F. D. Madison, Charles O. Sullivan and Edgar T. Zook of San Francisco.

The fact that the Standard Oil Company is the biggest producer of natural gas, and owns the most gas-producing territory in the northern fields lends color to the report that the Standard will sell gas to the new company. The men interested in the new company are connected with some of the public-utility corporations of the Bay City.

BAKERSFIELD EXCHANGE.

IT WILL BE DISSOLVED.

The Bakersfield Oil Exchange, which was organized last spring, but which has never opened for business, will probably be dissolved at a meeting to be held today. In that event the money subscribed by members for seats on the exchange will be returned.

At the time of the organization of the Bakersfield Exchange there was a decided boom in oil stocks both in Los Angeles and San Francisco and there were many men in Bakersfield who desired to speculate in the issues. The boom subsided about the time the exchange was launched, and it was decided by the board of governors not to open for business till this fall. Realizing that the oil-stock boom is still punctured to a large extent it has been thought best to dissolve the organization.

LADY WASHINGTON WELL.

The latest reports from the Lady Washington, section 6-11-22, Sunset field, are to the effect that the well is down 2120 feet with eight-inch casing 2100 feet. It is believed that the main gusher sand will be reached at a depth of 2250 feet, and important developments are looked for within the next two or three weeks.

The La Blanc in the same section, a few hundred feet away, is reported to have finished a good well in the past few days.

Efforts to Protect It.

In order to safeguard the Lakeview oil that is stored in the big new reservoir in the hills west of the gusher, the Union Oil Company is doubling the thickness of the dam which forms the lower side of the reservoir. It is said that a channel will be cut through a hill to carry away the water that comes down the canyon from above the gusher.

Some of the Lakeview oil is now being handled by the Producers' Transportation for the Agency, and is being run to tidewater. However, not much can be done until the storage being erected along the Producers' pipe line and at San Luis Obispo is completed. This work is being held back to some extent by the interference of the bruisers hired by the labor unions.

The Lakeview gusher is now flowing between 15,000 and 16,000 barrels of oil and is making about 5 per cent. water.

BUYS ON THIRD.

Frontage Near Tunnel Sells For Sixty Thousand Dollars.

W. B. Merwin & Co. and H. H. Cotton & Co. report the sale for Richard C. Cushing, Jr., to C. H. Post of a three-story brick building on the south side of West Third street, near Flower. The size of lot is 45x120 feet. The price was $60,000.

The building has just been completed and is modern in every respect. It contains 67 rooms and nine bathrooms. The property is located just west of the Third-street tunnel. The new owner will hold the property as an investment.

Chicago Grain Market.

CHICAGO, Oct. 1.—A decrease in Russian and Danubian shipments was a bullish influence in the wheat market today. September liquidation rather than heavy short selling was the main cause of the decline here yesterday. Liverpool showed some firmness, the result of bidding by the continent. The market opened 1-4 to 5-8c higher, with December at 94 1-2 to 95 5-8 to 3-4c, a rise of 3-8 to 1-2 to 5-8c. After touching 96.3¼ the price reacted to 95 1-2.

Good Progress On Wells.

E. A. Wittese, managing director of the Consolidated Oil Company, who is down from the fields, reports that the big gusher on section 30 is performing in splendid shape, and that fine progress is being made on the wells on sections 32 and 15. The company is increasing its sales to the Standard, and the latter company is building a 6-inch pipe line from the Consolidated gusher to its tanks near the town of Taft.

GAS COMPANY FORMED.

While it became known several days ago that the Bo-ssen interests of San Francisco had purchased the property of the Home Oil Company in the Midway field, the purchase price was kept a secret. It is now stated that the eighty acres brought $400,000, or $5000 an acre. The land is regarded as very choice.

SATISFACTORY.

BUILDING GOES AHEAD RAPIDLY.

REPORT OF POMONA INSPECTOR IS ISSUED.

Increase for Month of September Is Fifteen Thousand Dollars as Compared With Corresponding Month of Last Year—Year's Figures Are Also Most Encouraging.

POMONA, Oct. 1.—The report of City Building Inspector Lyman Cowles for the month of September shows that the permits issued aggregate $55,990 or about $15,000 more than September, 1909. The total building permits up to October 1 this year have been over $625,000 or $102,000 more than for the first nine months of the year 1909. It is estimated that the total local permits will aggregate nearly a million dollars for the year 1910. The amounts by months thus far this year are as follows: January, $172,500; February, $41,000; March, $57,000; April, $58,000; May, $53,150; June, $53,870; July, $35,000; August, $42,500; September, $55,900.

ENTRAIN FOR CAMP.

This morning forty-five members of Co. D, N.G.C., under command of Capt. Homer Duffy, together with the Seventh Infantry Band, stationed here, entrained at the Southern Pacific depot in a special car for Camp Atascadero to participate in the annual regimental maneuvers. The routine will be a school of military instruction under direction of regular army officers and some companies of soldiers from the regular army. Mimic warfare and methods of a campaign in actual army life will be exemplified.

Rev. Joseph Nunan, who has returned from a trip of several months' duration in Europe, having visited Italy, France, Belgium, Switzerland, Spain, England and Ireland has gone to San Francisco for a brief sojourn before resuming his parochial duties in St. Joseph's parish here.

MORE PUPILS.

There is a total registration of 2170 pupils in the Pomona public schools at the present time. This is an increase of over 160 pupils more than were registered up to October 1 last year. Four hundred of these pupils are registered in the different departments of the High School.

Mr. and Mrs. W. L. Wright entertained at dinner in honor of the eightieth birthday of Lewis Wright, the former's father, at the Wright home on East Holt avenue. Those present were Messrs. and Mmes. John K. Wright and family; Arthur L. Wright and family; Misses Jane and Maude Wright, Lewis Wright, Jr., and Ross Wright, and Mr. and Mrs. William Dickie.

Rev. Dr. J. F. Loba of Ontario gave an illustrated lecture on life and customs in India at Pilgrim Congregational Church last evening.

CRASH.

AUTO HIT BY ELECTRIC CAR.

TWO WOMEN SUFFER ON THE LA HABRA ELECTRIC LINE.

WHITTIER, Oct. 1.—Two women were injured, one slightly the other more severely, when a Pacific Electric car on the La Habra line crashed into an auto driven by Mrs. John Rankin of East Whittier, day before yesterday. Mrs. F. Swoveland was seriously hurt while Mrs. Rankin received quite a shaking up.

Mrs. Rankin was driving the auto at the time of the accident, and stated that the motorman of the car gave no signal until right at the crossing.

The car caught the front end of the machine, the fender and the lights off, and shoved the auto to one side and off the track. Mrs. Swoveland, who was in the front seat with Mrs. Rankin, was thrown out and her spine was badly wrenched. She also received several bruises and, it is feared, internal injuries.

Mrs. Rankin was able to stay in the machine by holding to the steering wheel. Aside from being badly shaken up she received a nervous shock. Three children who were in the back seat were not hurt.

The ladies were taken to the house of Mr. Brokaw of East Whittier, and afterward were conveyed to the home of Mrs. Rankin where a doctor was called.

Popular Prices and Strictly ONE Price

This Season's

Drapery Effects

The variety of printed fabrics produced this season is unusually extensive. These include Chintzes, Cretonnes, Printed Linen, Taffetas, Hand Blocks, Printed Warp.

The designs and colorings cover a vast field:—

French designs in soft pastel tones.
English chintzes in quaint old-fashioned colors.
Dutch prints in pastel colors.
India prints in real mellow antique designs and colors.
Printed taffetas and warps in most beautiful and rich effects.

The lowest priced ones have been selected with the same care as the highest priced cloths.

Printed fabrics are extensively used in bedrooms for hangings, couch and cushion covers, bed spreads, screens, shirt waist and shoe boxes, scrap baskets, lamp shades, etc.

Every woman living here knows how hard our Southern California Sun is on colored materials and we believe you will be interested in knowing that we have some Beautiful Side Curtains, moderately priced which come in a number of attractive designs and which we fully guarantee not to fade.

A few dollars invested in our draperies sometimes completely refurnishes a home and gives that added touch which is so much appreciated by those who enjoy your hospitality.
Our new drapery stock affords ample opportunity for careful choosing as all our fabrics were selected with the characteristic PEASE carefulness and marked at ONE PRICE. We hope you will inspect our new Fall Showing, and are certain that you will be pleased with our selections.
Many people do not know that we handle wall paper, but we do, and also have a magnificent line of cretonnes and fabrics to match. Every man in our drapery and decorative department is an authority, and is just as anxious to please and to have everything exactly right as you are, because we not only want your good-will and absolute satisfaction, but we also want the added favorable comment of your acquaintances and friends.

Cartercar Again Beats All Records for Endurance and Economy

The 800-mile Reliability Contest, held this month at Buffalo, N. Y., was won by the CARTERCAR, which defeated all competitors in its class, and arrived over an hour ahead of schedule time, with a 4 days' perfect running score. Economy was a great feature, the entire 800-mile run being made at a total expense of $8.27—47 gallons gasoline, $7.52, and 6 quarts of cylinder oil, 75 cents. 17¼ miles on 1 gallon of gasoline over bad roads.

The Cartercar, the One Car That's Different
Saves Time, Fuel, Trouble and Worry

Only 3 quarts of water was used up in the 800-mile run. There was no tire trouble, not even a puncture. ALL THIS IS DUE TO CARTERCAR-PRINCIPLES, including the simple Friction Transmission, the Chain-in-Oil Drive, the steady, even engine-load; the smooth, harmonious working of the few simple operating parts.

A New One Piece Dress, Sketched from life in our Women's Department.

Correct New Ideas in Misses'

—AND—

WOMEN'S Autumn Apparel

A FEATURE of our Women's Garments that we desire to strongly emphasize is their careful hand tailoring.

This is an advantage which should not be lost sight of—for correct style is impossible without it—and it is quite lacking in the average garment.

Our Suits and Dresses not only possess real individual style distinction, but likewise they have the wonderful, thorough workmanship that ensures the permanency of their graceful lines. Every detail is superior, even to the guaranteed linings.

Afternoon and Evening Dresses, correct new ideas, priced from $16.50 to $125.

Tailored Suits in handsome imported materials — Worsteds, Scotch Tweeds, Serges, Fancy Mixtures—in new tones of brown, gray, navy, green, tan, etc.—models from high-class makers—far superior to those ordinarily offered.

We especially invite you to come Monday and see the noteworthy suits we are offering at $35

Model 45. 20 h. p.—4 cylinders—96-inch wheel base—$875. A Torpedo Roadster with same power sells for $950.

20,000 Owners Say to You "Buy an Overland for 1911"

Licensed Under Selden Patent

Model 49. 25 h. p.—4 cylinders—105-inch wheel base—$1200. Made with 5 styles of bodies, including delivery body.

8 per cent. Less Cost—Fore Doors Free

THE OVERLAND—the leader of motordom—announces 22 attractive models for 1911, a further saving of eight per cent. in cost and fore doors free

Twenty-two four-cylinder models from 20 to 35 horse power from $875 to $1825. All prices include magneto and full lamp equipment.

We start this new season with almost 20,000 Overlands in use—with a record of 12,326 cars delivered in the first seven months of this year—with deposits already in hand for more than 18,000 of the new models just coming out.

We start with five factories—with the finest machinery ever employed in making motor cars—a factory capacity of 140 cars daily.

And we start with a record of amazing success such as none ever approached in this industry.

COST REDUCED 8 PER CENT.

We will continue to manufacture a line of five models, the same as produced in 1910; but, as a result of an investment of $3,000,000 in new equipment, these five models, as well as all new models, have been reduced in cost to the consumer an average of 8 per cent.—making 23 per cent. in two years.

We have made this reduction in spite of the advance in materials, the great jump in rubber, the increase in wage. We have done it while other makers of low-profit cars have been forced to advances, in one way or another.

Now the Overland gives the most for the money by a margin much greater than ever.

FORE DOORS INCLUDED.

The new Overlands are made with fore doors and without—your choice at one price. The fore door models for which most makers charge an extra price, sell the same as the open front.

We do this because fore doors will be the coming vogue. In Europe, where motor styles are set, 97 per cent. of this year's models are shown with fore doors.

Soon or late, every motor car maker must include fore doors at his standard price. So the Overland, in maintaining its lead, is doing just that this year.

22 ATTRACTIVE DESIGNS.

The improvements of this year are mainly in refinements of designs. Overland mechanism can hardly be further perfected. It brought this car, in two short years, to the dominant place in this line.

Our master designers have this year created twenty-two attractive models, largely based on foreign trend. The best of them will take their place among the most attractive cars in the world. No cars ever made at any price with better style, or lines, or finish.

PRICES FOR 1911.

The Overland prices for 1911 begin at $875 for 20 horse power—4 cylinders—and $950 for a Torpedo Roadster with 4 cylinders.

The 25 horse power Overlands sell at $1100 and $1200, according to style of transmission. The 30 horse power Overlands sell at $1400. So does an inside drive coupe.

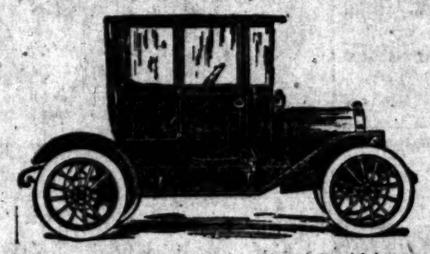
The prices run to $1750 and $1825 for the finest cars possible in 35 horse power with 118-inch wheel bases. Every price includes a magneto and full lamp equipment.

No other make gives so much for the money. No other make gives better than our best, save in excessive power.

OUR 1911 BOOK FREE

Send us this coupon for our latest book, showing all the new models with complete specifications. It will enable you to make your comparisons. No catalogue published shows so many styles as this. Send for it now before you forget it.

Model 50. 30 h. p.—110-inch wheel base. Made also as 5-passenger car with fore doors or open front. Price $1400.



Inside drive coupe—an ideal car for winter driving or for ladies. Extremely simple—carries four passengers—price, $1400.

Model 54. 35 h. p.—118-inch wheel base. As attractive a car as was ever produced. Price $1825.

OIL INTERESTS HIM.

Millionaire Japanese Operator Pays Visit to the Fields of Southern California.

K. Miyajima, millionaire oil operator of the island of Honshu, Japan, accompanied by his secretary, K. Nakano, is staying a few days at the Lankershim. He came to California by the way of the East, having first toured Europe.

Through his interpreter, Nakano, he said that he has come to this section of the country to compare methods of oil production with those in vogue in his country.

"I have been through the Bakersfield district, have seen the many producing wells, and am pleased to say that they are the greatest in the world," he said. "The management of the properties in most instances is commendable. In our country there are never as many people in the stock companies as here, they being closed corporations. We are at present importing oil from this country and it will not be long probably before a regular line of tank steamers for this single purpose is established."

How soon such an action will be taken the Japanese oil operator declined to say definitely. He will leave here Tuesday for San Francisco, there to embark for home.

Rural Carrier Change.

Ernest E. Betts was appointed rural carrier on Los Angeles route 8 yesterday, vice Noble E. Allen. Clare Betts was appointed substitute.

Luncheon for Johnson.

Arthur Letts, proprietor of the Broadway Department Store, gave a luncheon yesterday noon in honor of Hiram Johnson, candidate for Governor, at the California Club. The tables were prettily decorated. About thirty guests were present.

Attell and White.

MILWAUKEE, Oct. 1.—Abe Attell of California is to meet Frankie White of Chicago in a ten-round no-decision bout before the Badger Athletic Club on Friday night, October 7. The original match called for a meeting between Welgast and White. An injury to Welgast's right arm in a bout at Fond-du-Lac Thursday necessitated the signing of a substitute.

Aviator Haas Killed.

METZ (Germany) Oct. 1.—Aviator Haas fell and was instantly killed today while taking part in a distance competition from Treves to Metz. Haas had flown about twelve miles when from some cause unexplained his machine dropped suddenly to earth in the village of Wellen on the Mosell River. The aeroplane was demolished.

-State

$45 PER ACRE

This is positively the best alfalfa and dairying land offered in the State today at this price. The Corcoran district is famous for its alfalfa and dairying ranches. The tract is a big stock ranch with a deep, rich, sedimentary soil. Water from flowing artesian wells may be obtained quickly, cheaply and easily. Fortunes are being made by Corcoran district ranchers in alfalfa, butter, eggs, cattle and hogs. Now is the time to step right in and secure the finest alfalfa land in the State at $45.00 per acre. Ranchers are making from $150 to $1500 per month in dairying alone. Next excursion Tuesday evening. Register now for accommodations. Fare rebated to land purchasers.

Cash must accompany order. Goods will be packed by expert packers, and shipped immediately. Entire satisfaction is assured.

1911 CARS FOR DELIVERY Now

STEVENS DURYEA

AAA1

represents, in the credit books, the highest possible financial rating given a mercantile establishment. Were such ratings possible in automobiledom you would find this rating applied to the Stevens-Duryea, for the reason that it has earned, by twenty years of successes, a reputation for being first in quality. The Stevens-Duryea factory is known for its quality products; a factory that creates quality, improvements in motor car construction! A factory where quality comes before every other consideration.

Two of the Most Luxurious of the World Famous

Simplex

(4 cycle)

cars ever produced,

formed part of our last shipment. Basically they are the same splendid cars that bore the 1910 mark, for Simplex standards were so high that it was impossible materially to better the cars for 1911.

But in the matters of luxury of appointment and color harmonies in finish these two 1911 models are so unique that they must be set in a class by themselves. It will be interesting and instructive to you to see them.

FRANKLIN

"DE-E-LIGHTED"

That is what everyone says after seeing the 1911 Franklins. T. R. himself could say no more.

The new features are irresistible. They are carried out with a completeness of detail and superiority of finish that places the Franklin in a class by itself, even when compared with the highest priced cars. Combined with the principles that have given the Franklin its unquestionable leadership, it leaves nothing to be desired by the most critical and exacting automobile user.

Just compare the Franklin with other makes. It is the only car that gives automobile buyers something really new without departing from well established principles.

These Demonstrators Are Here:

MODEL D—Larger than last year; 38 horse-power, 6-cylinder, double TORPEDO-PHAETON body, including top and electric lights. Price—$3650, f. o. b. Los Angeles.

MODEL M—A new 5-passenger car; 25 horse-power, 4 cylinders. Price—$2850, f. o. b. Los Angeles.

POINTS OF THE NEWS.

THE CITY. Special high-power explosives used by anarchists to dynamite the Times building, traced to factory in North, the three workers who obtained it by deception, known, and officers always on trail of the murderers; steps under way for deep inquisition to get at the perpetrators of the outrage and the "higher-ups"; four more of the charred and mangled dead taken from the ruins.

Local ministers denounce from the pulpit yesterday the perpetrators of the dynamite outrage at the Times building, and offer prayers for the bereaved families of the loyal men who lost their lives in the fire.

Good will between Japan and the United States is expressed in a notable feast held at Venice last night.

Bankers' specials arrive at short intervals during the night, and delegates to American Bankers' convention enthusiastic over trip.

Residents of Calmetown protest against inadequate system of sewers in that locality and ask for proper facilities to carry off storm waters.

GENERAL EASTERN. New York correspondent tells of operators' experience in trying to send special to Times just as bomb wrecked building.

Detroit freighter founders in Thunder Bay, Lake Huron; crafts remove crew.

New Hampshire's captain states twenty-nine sailors lost their lives by swamping of barges; seven are missing.

HIGHEST.

FEARFUL PERIL IS OVERCOME.

ENGRAVERS ON SIXTH FLOOR ESCAPE BY ROOF.

One Swings Across Narrow Street on Telegraph Wires, Others Crawl to Safety Over Ladder Bridge Swinging From Hands of Rescuers—Only One of Them Burned.

Among the many marvelous escapes from the horrible deaths which overcame so many of the men in the Times Building when it was destroyed by dynamite, were the engravers, who were at work on the top floor. So terrific was the explosion that the sixth floor heaved up and broke and ink from the basement was scattered over the men.

And then the flames came, seemingly with the explosion, and Harvey Coleman was burned about the face, where he stood horror stricken. The next moment there was a rush for the door leading to the basement. But on the fifth floor the flames barred progress.

George W. Long, foreman of the engraving plant, led the way to the roof of the Baumgardt building and then went back to see that all had got out. Through the thick smoke they made their way to the alleyway which separates the building from a rooming house and there they called for help, which came from across the way.

Someone got a ladder to bridge the narrow gulf between the buildings, but it was just too short. With one end resting upon the extreme edge of the roof while men held the other end, one by one the engravers crawled across to safety.

All but one. Huber Bruce, after reaching the roof, became separated from his comrades and just where he hit the alleyway he found a telegraph cable spanning the area. Over this he went hand over hand, and in safety, through the falling debris and smoke.

The others in the engraving department who escaped are P. L. Seebald, Otto Lange, Edward Ball, Harry Anderson and Charles Seebald.

FUNERAL SERVICES.

Only the Family and Intimate Friends of Elder to Attend Last Rites.

The funeral services over A. Churchill Harvey-Elder, the assistant city editor of The Times, who was fatally injured in the explosion Friday night, will be held at the Bresee chapel, No. 635 South Figueroa street, tomorrow afternoon at 2 o'clock, according to present arrangements. The funeral will be private, only members of the family and nearest friends attending. The burial will be in Rosedale Cemetery.

A broken-hearted little woman was lifted from the train yesterday morning at the Southern Pacific station when the Owl rolled in from San Francisco. She was Mrs. Churchill Harvey-Elder, widow of one of the central figures in that flame-swept tragedy which deprived The Times of so many faithful workers.

Mrs. Elder was in San Francisco when the news reached her, having lately come from Honolulu, where she and her husband lived for two years. She was so prostrated by the shock of grief that she was barely able to make the journey to Los Angeles and was taken to the Clara Barton Hospital on her arrival.

C. W. Harvey, the grandfather of Mr. Harvey-Elder, is in a critical condition at his home in Whittier as a result of shock upon hearing of the tragic death of his grandson. Mr. Harvey is over 70 years of age and one of the pioneers of the Quaker City. When he was told of the tragedy he fell in a swoon and has been in the care of physicians ever since.

FLAG ABOVE THE EAGLE.

AT HALF MAST FOR DEAD.

The Stars and Stripes was raised yesterday over the shattered wall that is all that remains to tell where the Times Building stood.

The old flagstaff still remains, charred and singed, above the seared old Times eagle. The halyards, of course, were burned away.

Fire Chief Eley sent a hook and ladder truck and the long rescue ladder was let out. One of the firemen shinned up and nailed the flag at half-mast to the pole—that was as high as he could reach from the ladder, and that was as high as anybody could have had him reach; for the charred dead of the Times still reposeth beneath it.

There were tears in many eyes of the great crowd that stood in the street below as the flag floated to the breeze above the wrecked walls.

Physicians in a persons who were cheery news last that each one is and that all of leave their beds

Until yesterday were grave doubts of the injuries Lovelace, country Times, as it was fered internal inju symptoms passed

The physicians from the shock of from hurts phy He was able to wife, who has been
